CANT DESTROY BEER, ORDER.  
St. Louis Firm Gets An Injunction Against Dry Officers.  
[BY A. P. RAY WIRE.]  
ST. LOUIS, Dec. 7.—A temporary injunction restraining prohibition officers from destroying beer made under a permit issued by the government for the manufacture of beer for medical purposes has been granted to the Pfaltz Corporation, a local brewery, by the United States District Court. The injunction is a preliminary order to the application of the brewery, attacking the legality of the anti-beer bill.

SLAYER OF POLICEMEN CAPTURED?  
Youth Jailed for Hold-up at San Bernardino Also Suspected of Killing.  
Charles Allen, 21 years old, was arrested last night at San Bernardino charged with holding up and robbing the proprietor of a tobacco store there early in the evening. He also is held on suspicion of being one of the three men who killed, Patrolmen Britt and Clester in Los Angeles Tuesday night. Allen and his companion, who escaped, have been riding in a Chevrolet car, which Allen says they obtained at Venice, where he says he lives. He denied connection with the Los Angeles shooting.

COUNTRY ON UP-GRADE.  
WASHINGTON, Dec. 7.—The year 1921 was described as "one of liquidation" and the year 1922 was forecast as "one of reconstruction" by Secretary Hoover today at the annual convention of the United States Potters' Association. "The country has passed the worst stages of depression and is now on the up-grade," he said. Activities in the construction industry, he declared, were reports of conditions. This industry for three months, he said, has revealed extremely encouraging indications. Mr. Hoover expressed the belief that a too liberal interpretation had been applied to the phrase, "Keep the government out of business." When the phrase was coined, he explained, it applied to getting the government out of the operation of railroads and ships, but, he asserted, there were many lines of business which need the co-operation and assistance of the government. Export trade, he added, was primarily in need of governmental assistance and service.

PRISONERS SET FREE.  
Release Many in Ireland.  
Premier and King Are Given Credit for Successful Negotiations.  
Difficult Problems Yet to be Solved, but Peace Seems Assured.  
[BY CABLE AND ASSOCIATED PRESS.]  
LONDON, Dec. 7.—With tension and anxiety giving place to general rejoicing this has been a day of congratulations, of recalling scenes of great figures in the Irish struggle, whose work and sacrifices paved the road to today's accomplishments, and of preparations for the formalities for bringing the new Irish Free State into being. Nowhere is there a real idea anything can happen to prevent its birth, although difficult details may be encountered.

TO STOP POLLUTION OF HARBOR WATERS.  
WASHINGTON, Dec. 7.—Immediate action will be taken to prevent pollution of waters at important harbors, Secretary Hoover today told the House Rivers and Harbors Committee. Legislation, however, should be confined to preventing oil pollution, he said, adding that he favored investigation to determine the advisability of checking other forms of harbor contamination. "Oil pollution not only is destroying fish, he said, but is proving a tremendous fire hazard and seriously damaging beaches."

MEIGHEN LOSES OWN TOWN.  
Speculation Rife on Next Cabinet in Canada.  
OTTAWA, Dec. 7.—Having captured control of the Canadian Parliament in yesterday's election when the conservative cabinet and untidiness were defeated, Liberals tonight were speculating on the makeup of the next ministry. It is probable some little time will elapse before Premier Meighen, out-balled in his home district in Manitoba, resigns, and W. L. Mackenzie King, Liberal leader, is asked to make his selection.

SOUNDS NOTE  
OF OPTIMISM.Harding Sees Success of  
Arms Meeting."Know Whereof I Speak,"  
Says President.Hopes Red Cross Work Will  
be Only Peaceful.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Dec. 7.—De-  
clared optimism on results of the  
arms conference was expressed by  
President Harding today in two  
brief addresses, one to a delega-  
tion of farmers and the other at  
the annual meeting of the  
American Red Cross.Speaking to a delegation from  
the national board of farm organ-  
izations, the National Farmers'  
Union and affiliated organizations,  
the President said:"This conference will demon-  
strate the wisdom of international-  
ity coming together—nations facing  
each other and settling problems  
without resort to arms."

GOING TO SUCCEED.

Later Mr. Harding in convening  
the Red Cross meeting declared:  
"We are going to succeed be-  
cause our fondest hope is in get-  
ting to be pleasing to be able to

## SAYS JAPS NOW FAVOR PACT

(BY CABLE AND ASSOCIATED PRESS.)

HONOLULU, Dec. 7.—The  
Japanese diplomatic council for-  
mally approved the proposed four-  
power treaty for settlement of Pa-  
cific Ocean differences this eve-ning at a meeting at Premier  
Takahashi's official residence, ac-  
cording to a Tokyo cablegram to  
the Nippon Jiji, a Japanese lan-  
guage newspaper here.thought and acted in such a way  
as to bring the deliberate intel-  
ligent public opinion to this con-  
clusion. I am so proud of Ameri-  
ca because I have been the witness  
of the radiation of American con-  
science and American public senti-  
ment to the farthest parts of the  
world."You haven't any idea the in-  
fluence which the state of mind of  
this republic has had on the other  
nations in this very crucial and im-  
portant time. And it is so fine to  
know that the rest of mankind  
accepts the attitude of this great,  
powerful nation, much able to go  
on in a competition for armament,  
much stronger to assert its de-  
mands through physical might  
than anybody else in the world,  
and yet, notwithstanding that more  
fortunate position of physical  
might and financial strength, here  
is our republic, asking nothing of  
anybody else except to join us in  
the accomplishment of a thing  
which we have done before we can  
do now. There isn't anything  
possible when the conscience of  
present day civilization is fixed on  
that accomplishment."

PROUD OF AMERICA.

And quite apart from our con-  
tribution to this new consciousness  
in the world, quite apart from the  
immediate benefits and satisfac-  
tions which come to us, what a  
wonderful thing it is to haveI have found many a satisfaction  
in the knowledge of the tender  
things and sympathetic things and  
helpful things and Christ-like  
things which you have done, it is  
a pleasure to say I hope your  
sympathies and your humanities  
and your gentler and sympathetic

DEVELOPMENT.American Attitude Expressed  
at First Meeting of  
Subcommittee.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Dec. 7.—  
The American attitude to-  
ward aviation appears to be  
that it should have unlim-  
ited development.This attitude, it was  
learned today, was infor-  
mally developed in the first  
meeting of the subcommit-  
tee on aviation.ministrations and your generosity  
shall more largely be applied to  
those inevitable misfortunes which  
come now and then in the peace-  
ful course of human affairs. There  
will never be a time when there  
is not a work to do. But how  
much more comforting it is go-  
ing to be to have consciousness  
that you are contributing to the  
achievement of peace rather than  
to the perpetuation of war, as  
an agency to relieve the suffer-  
ings deliberately caused by war."PROGRESS ON  
PACIFIC PACT.

(Continued from First Page.)

flected optimism over the Rha-  
tung negotiations after another  
meeting in which Japan offered to  
give up the public property in the  
leased territory of Kiaochow as  
another step toward meeting the  
Chinese position.In the committee of the whole  
of the nine nations, a resolution  
was adopted, pledging respect for  
China's neutrality in future wars,  
and another restricting the use  
of foreign radio facilities on  
Chinese soil.Although some of those spon-  
soring the new four-power plan  
have gone so far as to prepare a  
tentative treaty draft, there are  
several details on which the plen-  
ipotentiaries have not yet pre-  
sented their views in their informal  
exchanges. There seems to be a  
universal confidence, however, that  
details easily can be adjusted once  
the principle has unanimous ac-  
ceptance.

ACCEPTANCE IN PRINCIPLE.

Thus far only Great Britain has  
given an acceptance in principle,  
but her delegates, like those of  
Japan, have cabled home for fur-  
ther instructions. The Japanese  
and American delegates are pro-  
ceeding slowly and the French are  
said to have taken very little part  
in the conversations.It was at a meeting of the "big  
three" nearly a week ago that the  
project is understood to have taken  
such form as to permit of its trans-  
mission to London and Tokyo for  
instruction.The American delegates, it was  
said, had felt from the beginning  
of the negotiations that some form  
of international compact to preserve  
the peace of the Pacific was a de-  
velopment most to be hoped for  
as a result of the conference. The  
Anglo-Japanese alliance was said  
to be regarded as less efficient than  
would be an agreement in which  
other powers could join.

BOUND BY RESTRICTIONS.

On the other hand the American  
group found itself bound by  
well-defined restrictions in view of  
the constitutional limitations of the  
executive in treaty matters and the  
long-established national policy of  
noninvolvement in foreign en-  
tanglements. The foreign plen-  
ipotentiaries are understood to have  
been told that the American dele-  
gation could not consider any pro-  
posal approaching an alliance and  
that if such a proposal were ne-  
gotiated the Senate never would  
ratify it.The problem then became a  
question of finding such a basis  
of agreement as would impel  
Japan and Great Britain to main-  
tain the alliance and be assured  
of the Senate ratification. In the  
plan under consideration the  
American delegates are understood  
to feel confident of Senate support  
and the intimations coming unof-  
ficially from British and Japanese  
sources indicate that the proposal  
is also receiving favorable consid-  
eration at Tokyo.In the long string of "cooling  
off" treaties negotiated by W. J.  
Bryan when he was Secretary of  
State, the previous treaties have  
hostilities for discussion and pos-  
sible arbitration was fixed at six  
months. The same period has  
been suggested in some quarters  
for the new four-power agreement,  
while from other sources have come  
proposals for a longer or shorter  
period. In the main the tendency  
has been to follow closely the prin-  
ciples of the Bryan treaties.

ANTI-SALOON LEAGUE

ELECTS ITS OFFICERS.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Dec. 7.—Rt.  
Rev. Thomas C. Nicholson of Chi-  
cago, bishop of the Methodist Epis-  
copal church, yesterday was elected  
president of the Anti-Saloon  
League for the next two years.  
Wesley B. Whorl of Washing-  
ton was re-elected general counsel  
and legislative superintendent.Resolutions, adoption of which  
are scheduled tomorrow, are ex-  
pected to declare for law enforce-  
ment and world-wide prohibition.

## COMMUNIQUE ON FAR EAST.

(BY A. P. NIGHT WIRE.)

A communique issued today  
said:"The committee on Pacific and  
Far Eastern questions met at 11  
o'clock this morning. The follow-  
ing report of the subcommittee on  
draft in regard to radio stations  
in China was submitted:"The subcommittee on draft-  
ing begs to report the following  
resolution regarding radio stations  
in China:"Representatives of the pow-  
ers hereinafter named participat-  
ing in the discussion of Pacific and  
Far Eastern questions in the con-  
ference, to wit: The United States,  
Belgium, the British Empire,  
China, France, Italy, Japan, The  
Netherlands and Portugal, have  
resolved:RADIO STATIONS.  
"That all radio stations in  
China, whether maintained under  
the international protocol of Sept.  
7, 1901, or in fact maintained in  
the grounds of any of the foreign  
legations in China, shall be lim-  
ited in their use to sending and  
receiving government messages  
and shall not receive or transmit  
commercial or personal or unof-  
ficial messages, including press mat-  
ter; provided, however, that in case  
all such radio stations shall be  
interrupted, then upon official  
notification accompanied by proof  
of such interruption from the  
Chinese government, the Chinese  
government has given notice of  
the termination of the interrup-  
tion."

RETURN TO CHINA.

"All radio stations operated  
within China by a foreign govern-  
ment or the citizens or subjects  
of a foreign government or citizens  
of the government of China, shall  
limit the messages by the trans-  
mission of the treaty for concessions  
under which the respective sta-  
tions are maintained.""In case there be any radio  
station maintained in China by a  
foreign government or citizens or  
subjects thereof without the au-  
thority of the Chinese government,  
such station and all the plants, ap-  
paratus and material shall there-  
of be transferred to and taken over  
by the government of China, to be  
operated under the Chinese Min-  
istry of Communications upon fair  
and full compensation to the own-  
ers for the value of the installation.  
The Chinese Ministry of Commu-  
nications is prepared to operate  
the same effectively for the  
general public benefit.""If any questions shall arise as  
to the radio stations in leased  
territories in the South Manchuria  
railway zone or in the French con-  
cession at Shanghai, they shall be  
regarded as matters for discussion  
between the Chinese government  
and the governments concerned.""The owners or managers of  
all radio stations maintained in  
China by foreign powers or citizens  
or subjects thereof, shall confer  
with the Chinese Ministry of Com-  
munications for seeking a com-  
mon arrangement to avoid inter-  
ference in the use of wave lengths  
by wireless stations in China, sub-  
ject to such general arrangements  
as may be made by an interna-  
tional conference convened for the  
revision of the rules established by  
the international radio telegraph  
convention signed at London July  
3, 1912."

SUPPORTED BY FRENCH.

"Mr. Viviani gave his unreserved  
support to the resolution proposed  
by the committee on draft, which,  
he said, indicated real progress to-  
ward a solution. He said he would  
like to express again an idea pre-  
viously formulated. The confer-  
ence had made a first step; but it  
was most desirable that further  
progress be made.""To this a general agreement  
should be reached which would  
result in the regulation of the  
competition now prevailing with  
regard to wireless telegraphy in  
prolonged, might easily result in  
a hopeless tangled competition  
must be replaced by co-operation.  
He added that viewed similar to  
this had been developed by the  
United States government.""The chairman then stated that  
the American delegation was in  
full sympathy with Mr. Viviani's  
idea and wished once more to  
suggest that Mr. Viviani might  
care to bring in a resolution giv-  
ing effect to it."

LEASED TERRITORIES.

"The committee discussed  
leased territories in China. Dr.  
Koo made the following state-  
ment:"At the meeting of the com-  
mittee December 3, Mr. Hanhiara  
made a statement outlining the  
position of Japan with reference  
to the leased territories in Kiaochow  
and Kwantung peninsula. The  
declaration that Japan suc-  
ceeded Germany in the leasehold  
of Kiaochow under the Treaty  
of Versailles is obviously one un-  
ilateral in character to which  
China, not being a party to that  
treaty, cannot be expected to sub-  
scribe.""It is, however, gratifying to  
note the reference to the fact  
referred to in the statement that  
Japan obtained her leased terri-  
tories in China not directly from  
her but from others at consid-  
erable sacrifice in men and treasure,  
and this assurance appears to  
confirm the views of the Chinese  
delegation that the maintenance  
of foreign leased territories in  
China constitutes a peril to the  
Far East. It will be recalled that  
Russia's possession of Port Arthur  
and Dalian and Germany's pos-  
session of Kiaochow eventually  
brought two wars on Chinese ter-  
ritory and resulted in the instal-  
lation of Japanese in these leased  
areas."

VALIDITY QUESTIONED.

"As to the leased territory of  
Kwantung province, namely Port  
Arthur and Dalian, its original  
term will expire in 1923, while an  
extension to ninety-nine years was  
obtained by Japan in 1915, it was  
obtained in exchange for the  
dispute about its validity it  
remains one of the most grave out-  
standing questions between China  
and Japan.""Both Port Arthur and Dalian  
are situated in Manchuria, which  
is an important part of Chinese  
territory. Not only does the na-  
tional safety of China rely upon  
the safeguarding of Manchuria as  
an integral portion of the Chinese  
republic, because there three eastern  
provinces have been the histo-  
ric road of invasion into China,  
but also the security of the econ-  
omic life of the Chinese people  
depends in a very vital measure  
upon the conservation and devel-IS WAR ENDED?

would begin to cry and thirty-six  
fathers would begin to swear.

GERMAN BABY CHORUS.

The baby chorus was all Ger-  
man. The waiters were big, fat  
youngsters with red cheeks and  
powerful lungs. The French brides  
did not have even a single baby.  
According to the soldiers the  
attitude of the brides is typical of  
the French and German nations.  
They said that Germany harbored  
no animosity toward England and  
America, but that she still hated  
France and France returned the  
sentiment.Also on board were the bodies  
of 806 American soldiers from the  
cemetery of France. They were  
in charge of R. G. Farr, of the  
grave registration service.  
Maj. A. M. Griffin, Medical Corps,  
was in charge of twenty-seven  
additional wounded men on their  
way to the Walter Reed Hospital  
in Washington.

CHANGE DUE IN POLAR REGIONS.

Explorer Says Country Ripe for Colonization.

Norway Reindeer Imported to Baffin's Island.

Will Mean Establishment of Meat Industry.

(EXCLUSIVE DISPATCH.)  
CHICAGO, Dec. 7.—That the importation of 550 reindeer from Norway into Baffin's Land, an island in the polar regions, off the east coast of Canada, marks the beginning of political and economic changes for the United States and Great Britain, was his assertion today of Vilhjalmur Stefansson, famous Arctic explorer.

FUTURE COLONIZATION.  
"I have just received a wireless message that this consignment of reindeer has been landed by the Hudson Bay Company," he said. "This fact, while insignificant in itself, is of importance."

"It means the beginning of a great and vast future colonization in the northern part of Canada, from the outposts of present-day frontiers to the north coast. It means the inception of the establishment of that huge region as the source of supply of the meat industry of the world. It means that the tale of the British lion may—probably will—in the future, be waged from this side of the Atlantic instead of the other, and

that the United States will not be so supreme always on this side as it now is."

"The polar regions now are looked upon by the general mass of the people as a great mass of impenetrable and eternal ice. The fact is, they are not that at all. They are no more than that. They have their winters and summers just as we have. On a July day we are just as likely to find it 100 in the shade beyond the Arctic circle as we are to find it that in Chicago."

KEEP UP ILLUSION.  
Mr. Stefansson was asked why many prominent explorers have shown a serious impression of the polar regions to exist.

"Well," he replied, with a smile, "I guess we have been loath to change their minds. What you will find in most of the statements of the explorers and in their books is a discreet reticence and a careful selection of the truth. I am now, so to speak, giving the game away."

"Canada has in its north 3,000,000 square miles of grazing land. This is one-half the area of the United States. Thirty reindeer may be raised on the square mile, or they could raise there 30,000,000 reindeer."

"Up until 1902 the government had imported into Alaska 1250 reindeer. Although none has been imported since there now are in Alaska 150,000 reindeer, while in the meantime 100,000 more have been butchered. In the last year 3000 reindeer carcasses were imported from the north. The importations started only four years ago. Last year one American meat dealer purchased from Alaska 1600 carcasses, paying \$37 a head for them."

"Within fifteen years we will be importing 1,500,000 head of reindeer. Little doubt exists that twenty-five years hence meat will be as common as mutton now. In fifty years it will be as common as beef."

## VOTERS APPROVE PICTURE SHOWS.

Theaters in Waterloo to Stay Open Sunday as Result of Vote.

(BY A. P. DAY WIRE)  
WATERLOO (Iowa) Dec. 7.—Motion picture shows will continue to operate in Waterloo Sunday as a result of the referendum yesterday, the theaters receiving a majority of 1250.

## NINE SHOT IN CHICAGO RIOTS.

(Continued from First Page.)

quoted as to actual instances where workers were intimidated and re-mailed at their homes.

All the packers maintained today that there is no appreciable change in conditions at the yards. They are working from 90 per cent to normal, they assert, with the exception of some of the smaller plants which are, it is admitted, hard hit. The Brennan Packing Company is the only one that is not operating at all.

"We are working at 90 per cent normal basis," said one packer. "In one or two of the nonessential departments some few of the men have not shown up for work, but in the killing, cutting and manufacturing departments, which are the principal parts of our concern we are going along nicely. The men applying for work are more than sufficient to meet our needs."

John E. Ahern, general superintendent of Armour & Co., said the company is working on practically a normal basis. Of the original 300 or 400 who walked out Monday, he said, 150 have returned.

William R. Farver, general superintendent of Morris & Co., said: "The situation in our plant is unchanged. We are killing 100 per cent."

W. F. Burrows, president of Libby, McNeill & Libby said: "The condition at our plant is slightly improved over Tuesday. More than 15 per cent of our men are at work."

Dennis Lane, secretary of the Amalgamated Meat Cutters and Butcher Workers' Union, said that 18,000 workers are out. "We have the situation well in hand and expect a complete walkout," he said.

"Canada has in its north 3,000,000 square miles of grazing land. This is one-half the area of the United States. Thirty reindeer may be raised on the square mile, or they could raise there 30,000,000 reindeer."

**HARDING IDEA MEETS FAVOR.**  
But Senate Finance Body to Delay Action.  
Awaits Rewriting of House Tariff Measure.

**Californians Fight to Save Tobacco Industry.**

WASHINGTON, Dec. 7.—President Harding's suggestion for flexible tariff rates and a provision for proclaimed American valuation apparently have been well received by many Republican members of Congress, but a formal decision by the Senate Finance Committee is likely to be deferred until the rewriting of the House tariff measure is started, probably next month.

Chairman Penrose of the Senate committee, plans to confer soon with leading Republicans of the House Ways and Means Committee. He said today he had heard much favorable comment on the President's suggestions.

Senator Penrose expressed the opinion that careful thought would have to be given to the manner of delegating authority to the President to change the rates of proclaimed American valuation as the basis for assessing duties as changing conditions might warrant. Amendments to the House bill prescribing the means of making the grant of authority already have been proposed by Senator Smoot, Utah, a member of the committee, and these were given study today by members of the committee as well as other Senators and by some members of the House.

**HOUSE STARTS HEARINGS.**  
Hearings on the House measure were resumed today by the Senate committee. The tobacco schedule occupied the committee.

Junius Parker of New York, speaking for cigarette manufacturers, argued against the proposed increase in the House bill in the duty on Turkish tobacco, while Alfred Aram, representing California growers of a Turkish type tobacco, urged the increase on the ground that it was necessary for the development of the new industry in that State.

Charges that manufacturers do not want to encourage the growth of "Turkish type" of tobacco in California because they feel the crop cannot be controlled as can the imported product, were made before the committee by Alfred Aram of New York, representing the Associated Tobacco Growers of California. This was denied by Mr. Parker, who said that the manufacturers were interested only in getting the kind of tobacco they needed as cheaply as possible.

**WILL KILL INDUSTRY.**  
Mr. Aram was explaining that California growers had not disposed of any of their crops since 1919. He added that if the manufacturers purchased at a price covering the cost of production plus a fair profit the grower they would have to pay more than they would for the imported leaf.

"Unless the coming tariff bill carries a higher duty on Turkish tobacco," the witness said, "the industry in California will have to close."

Questioned by Senator Reed, Democrat, Missouri, the witness said the tobacco acreage in California was 3600 acres, giving employment to about 8000 persons yearly. The cost of production is \$1.25 a pound, he said, while the highest cost of production abroad is 50 cents a pound.

Senator Shortridge, Republican, California, said that the tobacco grown in California was a Turkish tobacco, that it came into competition with the imported Turkish, and should be protected. He said there were twenty types of Turkish tobacco.

Increased cost of production and higher freight rates were among causes he gave as reasons for the request for additional protection for the California industry, which he said had increased in production from 500 pounds in 1906, to 700,000 pounds in 1920.

Cotton schedules are to occupy the remainder of the week and further hearings were announced as follows:

December 12, flax, hemp, jute and manufactures of.  
December 13, agricultural products and provisions and spirits, wines and other beverages.  
December 14 and 15, wool and manufactures of.  
December 16 and 17, silk and silk goods.  
December 18 and 20, sugar, molasses and manufactures of.  
December 21 and 22, papers and books.

**VETERANS GET PENSIONS.**  
TUCSON (Ariz.) Dec. 7.—In the list of new pensioners appear the names of Henry P. Bardshar of Cherry, \$15, and William H. Stillwell, Phoenix, \$18. The former had fame in the war with Spain as Col. Roosevelt's special orderly, and later was appointed collector of internal revenue for the Arizona-New Mexico district. The latter, a Phoenix attorney and at one time district judge in Cochise county, was a major and paymaster in the war of 1898.

**Famous Doctor Will Continue Free Clinics.**

NEW YORK, Dec. 7.—Although keenly hurt by the cold shoulder which he said the medical profession of America had turned toward him, Dr. Adolph Lorenz, famous Austrian, indicated tonight he would probably carry on his free clinics for cripples here.

"I'll stay, if they don't throw me," he said.

Dr. Lorenz attributed the feeling against him to animosities bred by the war. The people as a whole, though, had been wonderful beyond description in their reception of his work, he added.

"Whether I go home to Vienna or stay is entirely up to the Health Commissioner of New York," he declared.

Health Commissioner Copeland said he would see it tomorrow that Dr. Lorenz remained.

**PROMINENT SOCIETY WOMEN UNDER FIRE.**  
ACCUSED OF TAKING LIQUOR TO CLUB: THREE MEMBERS EXPELLED.

CHICAGO, Dec. 7.—Three women prominent in society had carried liquor into the Casino Club, exclusive meeting place of the Golden Coast Society in violation of State and Federal laws, was the substance of reports made yesterday by Federal investigators.

The club, whose roster carries the names of men and women known all over the country, is endeavoring to purge itself of "harem parties" and similar debauchery at which liquor flows freely—quite too freely for the morals and general demeanor of participants. Three members have been expelled for staging these affairs and the organization are determined to stop these practices. They will have the active support of the government.

In connection with yesterday's disclosures in the Casino Club, an officer of Lake Forest today told prohibition directors of the doings of the sons and daughters of the wealthy residents of the West Side. He related in particular a beach party staged last summer by a large number of these young swells from multimillionaire families, in which the bathers disported themselves in the lake absolutely nude. This affair created a great sensation in staid Lake Forest and was hushed with difficulty.

The same official said some of the members of this nude bathing party spent their spare time doing "settling work" in the Chicago slums, helping to "improve" the morals of the wretchedly poor.

These boys and girls have "pin money" allowances ranging from \$150 to whatever they demand monthly and with a lot of idle time on their hands as a result of money they drift into practices that bring a shock to their jaded minds. Their parents propose, as one method of reform, to cut down their allowances.

**DEVELOPMENT OF AIR NAVIGATION URGED.**  
HARDING RECOMMENDS BUREAU BE ESTABLISHED AS AID TO COMMERCE.

WASHINGTON, Dec. 7.—President Harding transmitted to Congress today the annual report of the national advisory committee for aeronautics with the recommendation that a bureau for the regulation and development of air navigation be established in the Department of Commerce as proposed by the committee.

"I think there can be no doubt," the President said, "that the development of aviation will be of great importance for commerce as well as national defense. While the progress in aircraft has been remarkable, the use has not as yet been extensively developed in America."

A bill to create a bureau is pending before the House Commerce Committee.

The report which supplemented one made last April, recommended continuation of the Air Mail Service and development of aviation for military and naval purposes. Liberal provision should be made, the committee said, for maintenance of the Army and Navy air services and for training of their personnel.

The report emphasized the necessity of encouraging scientific research and the construction of new and improved types of planes.

**HOPE TO FLOAT DESTROYER.**  
SAN FRANCISCO, Dec. 7.—Reports received at the United States naval radio station near here from the destroyer De Long, which grounded several days ago at Half Moon Bay, south of San Francisco, said the ship's officers hoped to be able to float the craft Friday or Saturday, unless weather conditions prevent.

**EXPECT CINEMA OF FUTURE WILL TALK.**

UNIVERSITY OF ILLINOIS HAS BASIC PATENTS OF INVENTION.

URBANA (Ill.) Dec. 7.—A discovery which it "seems possible" will make the cinema of the future talk was announced by the University of Illinois today. The basic patents of the invention are held by the institution.

The scientific discovery is that of an extremely sensitive and reliable "photo-electric" cell, made about two years ago in the physical laboratories of the university by Prof. Jakob Kunz, says the announcement.

"The photo-electric cell is a device for turning flashes of light into electric pulses and is so sensitive that it reacts to light from stars which cannot be seen with the naked eye. A second film is used on the same spindle as the moving-picture film, on which are photographed curves and openings corresponding to the words which are to accompany the pictures. A beam of light sent through this film falls upon the photo-electric cell. It is thus possible to get variations in an electric current by letting the beam of light fall upon such a cell. These variations act in a telephone to reproduce speech."

"Dr. Kunz's photo-electric cell in transforming light waves into electric pulses responds immediately to a light wave even after hours and days of use."

The selenium cell was used with some success by a Swedish scientist, but Dr. Kunz's cell is declared by the university to be far more sensitive and promises to give the perfect "photo-phone" of the future.

SAVINGS COMMERCIAL TRUST  
of Los Angeles

**ONE BANK in ONE LOCALITY with ONE MANAGEMENT and ONE POLICY**

**THE MERGER** of the Long Beach Trust and Savings Bank and the Guaranty Trust & Savings Bank of Los Angeles, including the former National Bank & Trust Company of Pasadena has created ONE great bank, the largest in Southern California.

**ONE LOCALITY** Los Angeles, with its Harbor, Long Beach, Pasadena, Huntington Beach, Hollywood, are communities with many common interests. They are all growing at a very rapid rate. They have about the same kind of people, engaged in the same or similar enterprises.

**55 DIRECTORS** The Board of Directors of the Security Bank comprises men from all parts of the region which the Bank serves. Many of them are men of conspicuous business success and extended business experience, with diverse and important interests. Their character and influence assure the Bank of wise counsel and sound policies, calculated to benefit all the localities where the Bank has branches.

**LOCAL ADVISORY BOARD** The personnel of each of the merged banks remains practically unchanged. The same officers direct the local units. The same men who have met the customers of each bank, will greet them at the Branch. To assist the officers a Local Advisory Board has been provided for Pasadena and for Long Beach, so that in each locality the Branch may be distinctly a local bank with all that the phrase implies.

## TELLS NEEDS OF DEFENSE.

**People Must Aid Work, Says War Secretary.**

**Complete Preparedness is Future Aim.**

**Young Men Are Needed for National Reserve.**

(BY A. P. MIGHT WIRE)  
WASHINGTON, Dec. 7.—Realization of the full measure of national defense preparations of the Army awaits the moment when the American people "throw themselves wholeheartedly into the work," Secretary Weeks maintains in his first annual report, made public tonight.  
"Plans now initiated for preparation for national defense contemplate a more complete state of preparedness than at any previous period in the peace-time history of our country," Mr. Weeks says. "We have provided a framework for defense, prepared after careful study. We have an administrative body qualified to direct and control the constructive development of the framework. And finally, we have prepared the plans of development. All of this is, however, of slight

## AUTO MIRROR A FLIRTATION AID.

**Wife Says Husband Made Eyes at Woman Friend in Rear Seat.**

Now comes the rear sight automobile mirror as the very latest vehicle for flirtation.

Mrs. Hattie Webb introduced the mirror in her testimony before Judge Summerfield yesterday. She asked for a divorce, naming Mrs. Babe Eberle as the woman to whom her husband, Edwin Webb, paid more attention than he did to his own wife.

Mrs. Eberle, who said, sat in the rear seat of the Webb family automobile. She always occupied the left-hand side and, Mrs. Webb declared, made eyes at Mr. Webb through the medium of the rear sight mirror. She said her husband often snubbed her, but was very nice to Mrs. Eberle. Mr. Webb did not contest the case. Mrs. Webb was granted a divorce and the custody of the two children.

value until the American people, who are the source of material for the body of our defensive structure, throw themselves wholeheartedly into the work.  
"To insure success, they must lend financial support to the limit of the insurance demanded. The young men of the country must train themselves to be fitted into their places in the national reserve. The industries must prepare to co-operate in war-time production.

### CANNOT TURN BACK.

"The American people have started along this path and they cannot afford to turn back.  
"The present period, marking a transition from the high efficiency which we achieved during the World War at the cost of a great initial waste of life and treasure as the penalty of unpreparedness, must be characterized as one of the most important in our history by virtue of the duty which it imposes upon us of insuring that the lessons of the great war are not lost, but that they are perpetuated in enduring forms of organization and continuing policy.  
"While outlining fully the extraordinary steps taken by the department to reduce expenditures and renewing pledges to keep a firm hand on the purse strings in all that is done, Mr. Weeks points out the places where in his opinion too great a limitation upon appropriations will strike down the machinery of self-defense that has been devised and make lessons of the war valueless to generations to come.

### INSTRUCTORS NEEDED.

Step by step, he tells how the new Army—the Regulars, the National Guard and the organized reserve—has been brought into being. The "major function" of the regular Army, he says, is to provide corps of trained instructors in order that the reserve elements of the force, shall not be subjected to the excessive dangers that confront raw troops if called for a war emergency.

For this purpose it was essential, Mr. Weeks says, that the Regular Army have a large surplus of officers to do this training of reserve personnel. He adds that even if the regular Army "is maintained at its present dangerously low strength," with many officers released for training work by consolidation of units "the present commissioned strength will be insufficient to fulfill the functions required by our national defense policy when that policy attains its realization through acceptance of military training by the American people."

"As we decrease the size of our standing Army," the Secretary asserts, "we should increase the activity of our instructional work among citizens. We cannot afford to let the numbers of our regular officers decline. Neither can we afford to permit their quality to be lowered."

Declaring that at present the nation can obtain from the Military Academy approximately only one-third of requirements for the peacetime organization of the Army, Mr. Weeks expresses the belief "that the question of the advisability of doubling the capacity of this institution in the near future should be given consideration."

Asserting that there "is no longer a doubt" that graduates of the Reserve Officers Training Corps machinery will constitute the main source of supply for reserve officer material, Mr. Weeks points out the skeleton organization, Mr. Weeks says the appropriations now available for the summer training camps for such officers limit the work to a total of 11,000.  
"I earnestly hope," he adds, "that the authorization for the following years will be increased to enable us to handle at least a majority of those who apply for this training."

Paralleling the plans for mobilization of the Army in the event of war, Mr. Weeks shows, runs a similar work in connection with industries which is meeting hearty co-operation among business interests. Also there is going forward a study of all mechanical and other developments in order that there shall be no "lagging in the technique of peaceful industry." Pilot types of new equipment "from the infantry hand grenade to the heaviest gun of the artillery," the report says, are being produced and as they are fully tested and approved will gradually supplant existing standard types both with the troops and in the scheme of quantity production in war that underlies the department's efforts.

### STUDIES IN PROGRESS.

Similar studies as the poison gas and chemical warfare matters generally are in progress, Mr. Weeks says, adding:  
"Though we may be opposed in principle to the use of poison gas, I am of the opinion that we cannot safely presume a similar attitude on the part of possible opponents and neglect the development of chemical weapons if we wish to insure a successful defense in a possible war. I hope for continued support of this activity by Congress and by the chemical industries themselves."

This announces that

## DAILY TRADE TALK.

Day in Review; Sound Credit Conditions; Arizona Interest Converges on Railway Securities; Sterling Down but Not Out; Railroad Earnings; Copper.

BY CHAPIN HALL.

A perspective of the elements dominating the local business field show them to be distinctly constructive. The psychology is excellent, and there is a practical unanimity of opinion that the upward swing is permanently fixed.

The President's attitude on the matter of tax-exempt securities struck a responsive chord, not only among investment bankers, but business men at large profess to believe that a reform in this particular would do much to relieve the financial situation.

It is said that those who take advantage of the nontaxable investment are the very investors to whom the country has a right to look for a considerable share of its revenue, while the present system encourages extravagance in public expenditures.

The crossing of par by Victory Bonds, and the strength which other issues of Liberties have developed, has provided an added stimulation to the security market, due to lower money rates and a returning courage on the part of investors.

Not long ago bonds of excellent description were selling to yield 7 per cent or better. Current quotations on many of these issues are at less than 4 per cent while United States treasury short-term certificates have recently been marketed on a basis of 4 1/4 and 4 1/2 per cent. Liberty 4 1/4 per cent 1918 bonds, which were quoted at 85 1/2 early in the year, are now close to par.

Heavy Clues says that continued growth of sound credit conditions is indicated by the increasing abundance and lower price of loanable funds. An interesting study made by the Department of Agriculture showing that at the end of 1920 selected banks in the United States had loaned about \$2,800,000,000 in personal and collateral loans to farmers and \$1,447,000,000 in farm mortgages; a total of about \$5,200,000,000.

These figures, based as they are upon rather less than half of the banks of the country indicate the presence of bank advances to farmers in the entire United States of probably not less than \$11,000,000,000 to \$12,000,000,000.

The farmer is thus shown to be well provided with funds as compared with other factors in production, while within the past month progress in liquidating his borrowings of the proceeds of present crops has been going ahead steadily.

A definite reduction in the cost of money to "line-of-credit" customers at banks, who are largely manufacturers and distributors, has clearly taken place, while rates charged for investment as well as for short-term funds are obviously declining.

## NATIONAL BANK CALLS.

Washington advices indicate that there may not be another bank call this year, or at least until the closing days thereof. There have been but four 1921 calls in place of the customary six, and Los Angeles bankers comment favorably upon the change.

## MORE ABOUT COPPER.

There continues to be a good deal of smoke wherever copper is discussed, and a definite opinion prevails among those interested in copper here that a resumption of mining operations will occur soon after the first of the year.

D. C. Jacklin, in discussing the situation yesterday, said that consumption has reached a level where a partial resumption would be wise to prevent a possible runaway market. Regarding the future of the industry, he said that conditions are still too uncertain to make definite forecasts.

The average consumption during 1921, he declared was about one-half the production of a normal year. He believes that any steps to relieve the German debt situation, if only temporarily, will be reflected in the American raw material markets.

In line with this statement by the Utah copper king is one given Trade Talk by A. B. Woodward, western representative of the Mechanical and Metals National Bank of New York City, who was at the Alexandria yesterday. Mr. Woodward

left New York a week ago to attend the annual meeting of the Arizona Bankers' Association which is convened at Castle Hot Springs.

"Arizona towns are skeletonized," said Mr. Woodward, "but in spite of this fact a finer spirit of optimism cannot be found in the United States than among the old-timers in Arizona. They expect to see their smelters stirred up by March 1 and are going to weather the drought and hard conditions which they have been passing through."

The contrast of conditions there and here in Los Angeles is startling, but I want to tell you that the spirit of western men there and here is equally the same. I learned at the convention that Arizona feels very friendly toward Los Angeles, in a way considering themselves an outpost of this city and looking for much business to come in here when that State gets under way again."

## CONDITIONS IMPROVE.

Another encouraging note was struck yesterday by Governor Harding of the Federal Reserve Board, who said in a Washington address that business conditions are very much better than they were a year ago; that the farmers' position has materially improved, and that he sees a greater era of prosperity ahead than we have ever had before.

Governor Harding is not given to overenthusiastic utterances, and when he delivers himself of a calm belief that we are on the verge of a great era of prosperity his remarks are entitled to careful hearing and must be given such cognizance as the governor's position and unequalled sources of information entitle it.

## RAILROAD EARNINGS.

The railroad problems are by no means settled yet, and the roads are insistent that further wage reductions must be made before there can be much betterment in conditions either as reflected in rates or earnings.

A stock exchange report yesterday had it that December earnings will be considerably below those of November, which in turn fell below October. Just how much propaganda there may be in this statement is not immediately apparent.

The strike scare induced heavy shipments for a period before the time set for the strike, but this month the effect of such excess should have worn off and a normal seasonal increase be shown.

As a matter of fact, the buying power of the country is still a bit lame, and this is one reason for the slump. However there is daily improvement in this regard and there is reason to anticipate a better railroad statement with the closing weeks of the old year and the opening of the new.

## VOLTAIRE'S SCHEME.

The famous French satirical writer, Voltaire, was worth \$600,000 at 40 years of age. But he did not earn his money from books. He made most of it, says the Mentor, by lending money to needy noblemen.

He would lend an heir to an estate a large sum on condition that the heir should pay him 10 per cent interest on the amount as long as both of them lived. The heir would be neither required nor allowed to pay off the principal, and the agreement ended only when Voltaire died.

Voltaire picked only younger men and because of his tubercular appearance had no difficulty in getting clients. It is said that when a prospective borrower hesitated the satirist could cough in a way that always closed the deal. The scheme was very successful for Voltaire.

Voltaire's companion,

## Why These Four Classes of Investors Buy Bonds

When you buy bonds, your judgment is backed, not only by economists, most of whom say that bonds are the safest form of investment, but by—

Banks, which buy bonds because they are safe,

Insurance companies, which purchase bonds in large amounts because they are readily convertible into cash,

Wealthy individuals, who invest large sums in bonds because they yield a good income, and

Thousands of business men, who select bonds as the best form of investment of surplus.

Buy bonds—the years have proved them to be safe investments. Buy bonds now, before the present high yields fall to pre-war levels.

The facilities of STEPHENS & COMPANY are at your disposal to assist you in buying bonds now.

## A Monopoly in the Sale of Necessities

No city or town could exist without water, light, heat, power and ice—they have become absolute necessities of modern civilization.

Through long-term franchises Public Utility Companies acquire the right to furnish their communities with these necessities—monopolies in their fields.

We are offering long-term 6% First Mortgage bonds of a prosperous Public Utility Corporation which, through its subsidiaries, sells without competition the necessities of civil life to a population of 100,000.

The physical replacement value of the properties is largely in excess of the amount of outstanding bonds. Net earnings are substantially in excess of annual bond interest requirements.

Denominations as low as \$100  
Price 82½% to Yield 7.60%

Dated Feb. 1, 1917 — Due Nov. 1, 1947

STOCKS AND BONDS  
IN SAN FRANCISCO.  
(BY A. P. SHURT WIRE.)  
SAN FRANCISCO, Dec. 7.—Following are the closing quotations and sales on the San Francisco stock and bond exchange:

## YESTERDAY ON THE HOME EXCHANGE.

The active business developed by today's trading was the feature of the trading in the San Francisco stock exchange. The market opened at 115 cents after a previous close of 114 cents. The decline continued until the 113-cent mark was reached and then a sharp rally set in, resulting in a close of 115 cents. The market was active in the trading of the stock of the Home Exchange, which was the feature of the day's trading.

## Going Into Business for Yourself?

If you were—would it be Retailing? No matter whether you have already answered that question or not; no matter even if you have never anticipated making such a move—the data given below may prove interesting to you.

The F. A. Clarke Company is a retail concern dealing exclusively in Electrical Household Appliances. Starting in 1917 with one Store in Los Angeles, this Company has already established an enviable record for consistent yet remarkably rapid growth—now having stores in six other towns of Southern California—another Los Angeles Store at Seventh and Broadway, the busiest corner in America—and has under construction a Central Headquarters Building which will house another Store—an Electrical Service Station—the Company Garage—and the offices of the Company, and which will be the first building in the United States erected to serve Electrical Household Appliance Customers exclusively. It should be of interest to those considering the profitability of such a business that this amazing growth has been made solely upon the earnings of the Company.

NO!—the F. A. Clarke Company has no desire to "sell out" but it IS offering an opportunity for a very limited number of people to SHARE in its profits—at very little cost to themselves!

## The Opportunity

A great portion of the F. A. Clarke Company sales are made on the Partial Payment plan. At the present time the financing of these preferred payments is being handled through an Eastern Financing Corporation at considerable expense to the F. A. Clarke Company. The Company now proposes to finance its own deferred payments and, to make this possible, is offering \$110,000 worth of 8% preferred stock. This stock is being offered at \$95.00 per share—par value \$100.00. With each share of preferred stock one-half share of common stock will be given. Purchased at \$95.00 per share, this preferred stock will yield nearly 8 1/2%.

## STOCK DIVIDEND OUTLOOK FOR STANDARD OILS.

The Standard Oil Company, which has been a leader in the oil industry, is expected to announce a stock dividend in the near future. This dividend is expected to be a significant one, and will be a welcome addition to the company's earnings.

## "Income Building"

The "Income Building" plan is a new way of investing your money. It allows you to build up a steady income stream over time, and is a great way to grow your wealth.

## PROPOSES NEW WORK AT HARBOR

Board's Head to Outline Plans for Development at Meeting Tomorrow.

President McKee of the Board of Harbor Commissioners announced yesterday that at tomorrow morning's meeting of the board he will submit a proposed resolution outlining ways and means of securing the necessary data on which to base a comprehensive program for the development of Los Angeles Harbor. The plan, it is stated, calls for the submission by the harbor engineer of cost estimates for dredging various sections of the harbor, for the building of new docks and terminals on the east side of the main channel and for the completion of the outer breakwater.

President McKee suggests that conferences be held with representatives of the railroad and steamship companies and industries located at the harbor as well as with the Mayor, Chamber of Commerce, representatives of the government and others interested in harbor development. To the end that a complete program with a budget of estimated expenditures to carry out the improvements will be agreed upon, so that a policy of harbor development will be established and plans laid for the financing of the program.

## FORM HEALTH HABITS EARLY IN YOUTH

Help Nature Help Herself by Keeping in Condition From Infancy to Old Age

In young or old the tooth-brush habit promotes health, invites personal cleanliness and makes for a good disposition. The human mouth is the breeding place of germs. It can be the first part of the human body. That's why so many as 75 per cent of human maladies are said to originate in the mouth.

By the daily use of Pro-Rem Dental Cream on your tooth-brush you can keep your mouth clean. A powerful germicide and mouth disinfectant, yet absolutely harmless. No grit. No acids. Just a natural, scientific dentifrice made to meet the exacting standards of the profession. Don't use an ordinary tooth paste. Insist on a large tube of Pro-Rem, at all drugists 25 cents. Pro-Rem Chemical Co., 801 W. 9th St., Los Angeles.—(Advertisement.)

## For an abundance of soft, luxuriant hair, beautify with beauty and radiant with life, use -

Neubro's Herpicide

USE SLOAN'S TO WARD OFF PAIN

LITTLE aches grow into big pains unless ward off by an application of Sloan's. Don't rub, as it penetrates. A counter-irritant, Sloan's scatters congestion, and soon relieves the ache and pain.

Rheumatism, neuralgia, sciatica, lumbago, lame back, stiff joints, sprains and strains won't fight long against Sloan's Liniment.

Always keep it handy for instant use. For more than forty years, Sloan's Liniment has helped thousands of the world over. You won't be an exception. It certainly does produce results. You just know from its stimulating, healthy odor that it will do you good. Ask your neighbor.

### ROTARIANS TO MEET.

**Police of the Los Angeles Harbor district were watching outgoing passenger vessels yesterday for C. M. Bean, manager of the Torrance office of the Dominguez Land and Water Company, following the disappearance of \$1500 of the company's funds. Mr. Bean and his wife have also disappeared, police say they were told by officials of the company.**

**Mr. Bean is a Canadian and police were advised that he may endeavor to reach Canada on one of the passenger or freight vessels leaving between the local port and Vancouver, B. C.**

BROADWAY

**COUNCIL VOTES MORE POLICE.**  
Killing of Patrolmen Leads to Spontaneous Action.  
Tax Increase to Meet Cost is Authorized.  
Ordinance Augmenting Force to be Drafted.

As the direct result of the killing of Patrolmen William L. Britt and Harry Clester by bandits, the City Council yesterday unanimously authorized the City Attorney to prepare an ordinance immediately augmenting the police department's force. Following the action of the council, Chairman Muesel of the Council Finance Committee, who has consistently for some time urged an increase in the number of patrolmen, said: "It is a pity that it took the killing of two noble, heroic patrolmen to cause the council to take this action. I believe the council is doing the right thing in increasing the police force as a means of stopping the present crime wave. I believe the action of a majority of the council is also voting to increase the police force is a commendable one. It is a pity that it took the killing of two noble, heroic patrolmen to cause the council to take this action. I believe the council is doing the right thing in increasing the police force as a means of stopping the present crime wave. I believe the action of a majority of the council is also voting to increase the police force is a commendable one."

**DOPE PEDDLERS DEATH QUARRY.**  
Pair Hunted as Slaying of Two Patrolmen.  
Drug Sellers in Auto Known Near Death Scene.  
Other Clues to Killers Are Proved Worthless.

Two narcotic peddlers, known to have been in the Boyle Heights district driving a small touring car at about the time that Patrolmen William L. Britt and Harry Clester were shot and killed Tuesday night, are sought by the police. The drug dealers, according to the police theory, while transporting a quantity of opiates were surprised by the two patrolmen and shot their way to liberty. Both are known.

While one squad of police detectives yesterday searched the city for the suspects, a score of officers working under Police Captain Krieger spent the day running down and investigating all clues in the hands of the authorities. The investigation showed the clues, with the exception of the one pointing to the drug peddlers, to be worthless.

**BANDITS OPEN FIRE.**  
From what the police detectives were able to learn yesterday, it seems that Patrolmen Clester and Britt in a small patrol car encountered another automobile containing three men near South Los Angeles and Eagle streets. The officers called upon the driver of the automobile to halt and a chase resulted. The fleeing automobile was driven to the curb at South Los Angeles and Eagle streets and without warning the three occupants opened fire. Both of the patrolmen drew their revolvers and returned the shot.

Before the officers had emptied their revolvers one of the bandits fell and both of the officers were shot through the left temple and the abdomen and died at once. Patrolman Britt was shot through the lungs and a second bullet creased his scalp. He lived several hours. No information could be secured from the wounded officer before he died.

The pistol battle between the officers and the bandits aroused persons living in the neighborhood but none dared to leave his home until the officers left. By the time the officers reached the spot the bandits had lifted their wounded pal into their automobile and fled. No one secured the license number of the machine or a good description of the men.

**SEE BANDITS' CAR.**  
Several persons who were driving automobiles near the scene of the murders reported they had seen an automobile bearing a wounded man in the rear seat driven east of Fourth street. The lights of the automobile, though they had been used by the bandits were shot out, according to witnesses. No other description was obtained.

Within an hour of the double killing squads of deputy sheriffs were ordered to patrol all corners of the city. Word was sent at once to officers on the Mexican border to be on the lookout for the suspects.

The bodies of the two patrolmen were removed early yesterday morning from the Receiving Hospital to the City of Angels undertaking establishment. An inquest will be held today and burial plans will be announced.

**CLAW AT COLTON?**  
(EXCLUSIVE DISPATCH)  
SAN BERNARDINO, Dec. 7.—Sheriff W. A. Shay believes that two young men who drove through Colton at an early hour this morning and traded a spare tire for machine money had been the murderers of Patrolmen W. L. Britt and Harry Clester in Los Angeles. The men, driving a Chevrolet, were seen at Colton, where they were stopped at a garage and acted in a strange manner.

Their actions causing the garage man to take the car number. It is the belief of Sheriff Shay that the men are heading for the Mexican border by way of the Imperial Valley or through Arizona. All desert towns have been notified to keep a lookout for the car.

Another mystery that may be connected with the slaying of the Los Angeles policemen was revealed this morning with the finding of a blood-covered Essex automobile in the ditch near Loma Linda.

The car had plunged over a concrete culvert, and when found, contained nothing to indicate the identity of the occupants, who had deserted it. Newspapers, which evidently had been used for wrapping bottles of liquor, still smelted strongly of the intoxicants.

The front of the car is badly wrecked, and was partially buried in the sand. The State registration indicates the car to be the property of Philip Gregg, of 302 1/2 Van Buren place, Los Angeles, but up to a late hour this afternoon, efforts by Sheriff Shay to communicate with Mr. Gregg had failed.

Blood on the car indicated some of the occupants were injured, but check of the hospitals in the valley failed to indicate what became of them.

**ENDS LIFE IN GYMNASIUM AT SUBMARINE BASE.**  
C. D. Helsner, 44 years old, chief boatswain's mate at the submarine base, sent a bullet from a .45-caliber Navy automatic pistol through his head in the gymnasium of the base yesterday morning. He died a short time later at the base hospital.

Helsner, according to naval officers, had been in the Navy about twenty years and was a member of the Submarine Base force more than a year. Dependence over ill health is given by his superiors as the cause for the suicide.

According to his enlistment record the dead man has a daughter at St. Louis. Her name is given in the record as next of kin. Word was sent her by Capt. W. H. Miller, in command of the base. The body was turned over to the Cleveland Undertaking firm at the harbor, pending orders from the daughter.

# Jacoby Bros.

Store Now Open All Day Saturdays

## Should Your Holiday Plans Mean Out o' Door Gaiety

# Prunella Skirts at \$10.98

—They are pleated in various styles—some stitched to the hip while others swing free.  
—There are plain and novelty stripes and the color combinations are particularly effective.  
—The variety is bewildering and the last one you see seems the prettiest until you pick up another!  
—The ground colorings are browns, blues, grays and black with enlivening checks and stripes of henna, tan, blue or green.  
—The Christmas shopper will find these skirts the right answer to the gift problem.  
—And besides the ones at \$10.98 there's a host of others at \$14.98 and \$16.98.

Third Floor, South—Jacoby's

**Ye Gift Shoppe Says "Merry Christmas"**

—And says it in a host of charming ways—so many ways indeed that there's the right one for nearly everybody.

—Maybe you hadn't heard it, but Ye Gift Shoppe is Santa's own stamping ground—and it's getting to be more of a favorite every day with the crowds of Christmas shoppers.

—It's on the South Balcony and is filled with pretty, Christmas things gathered from all over the store.

—Candlesticks, lamps and shades and those much demanded "ladies."

—Library Table Books in Oriental tapestry effects.

—Men's Ties, Shirts, Handkerchiefs and Sweaters.

—Artificial Fruit and Santa's Luncheon Sets.

—Decorated glass Marmalade Jars and cunning little hand painted salts and peppers.

—Silver Tea Sets—Book Ends and Leather Fabric Bags.

—Doll Pin Cushions—a world of them—vases—novelty jewelry and ivory-ware.

—Neckwear, Bandkerchiefs and lovely silk underthings.

—We could fill the page with gossip about Ye Gift Shoppe and its pretties.

South Balcony—Jacoby's

**Hundreds of Real Leather Hand Bags in a Big Sale at \$2.98**

—Just think of buying them at a small part of their worth—and right at Christmas time, too!  
—The sale is so very big in every way that we are going to hold it up on the Third Floor, where there will be plenty of room.  
—And now just a word about these bags.  
—There are several different styles in most of the best liked colors and leathers.  
—All of them are bags that would sell for just about a half more.  
—Remember, the sale is on the Third Floor, North Building.

**Your Boy's School Colors in Wool Sweaters \$5.98**

—The heavy Jumbo weave, ruff-neck pull-over sort that so many boys are wearing, and \$5.98 is much less than they are usually priced about town.  
—They come in the different school color combinations, also heather and plain white. Sizes 30 to 36.  
—SAME IN SIZES 38 AND 40 AT \$6.98.  
Just inside the North Entrance—Jacoby's

We guard our throats against germs

"We first became acquainted with Formamint when our doctor, several years ago, prescribed it for an epidemic of sore throat. You know how it runs through a family."

"We like Formamint because it relieves so quickly and is so much more convenient than gargles and sprays, especially for the children who hate such remedies."

"Then you remember the 'flu' epidemic. How fearful we all were of crowded, stuffy places; theatres and shops; crowded cars and ill ventilated school rooms. Again the whole family 'Formaminted' their throats and mouths, by using the pleasant tasting tablets freely, whenever there was danger of contagion."

"Formamint must be really antiseptic, because none of us had the 'flu,' and few had sore throats, that whole winter. You can put our family down as Formamint enthusiasts."

Recommended by throat specialists, physicians, dentists and druggists.

## EIGHT HUNDRED AT CONVENTION.

League of Southwest Meet Drawing Delegates.

Colorado River Power Plan to be Considered.

Secretary Fall Thought to Have Harding Message.

BY G. F. HAYDEN.

(EXCLUSIVE DISPATCH.)

RIVERSIDE, Dec. 7.—Eight hundred delegates to the special meeting of the League of the Southwest, which convenes here tomorrow morning, have registered at league headquarters at the Mission Inn up to tonight. It is expected that nearly 1000 delegates will be present at the opening meeting tomorrow morning. About 500 are entitled to vote. These are chiefly interested in the naming of the committee on resolutions. No officers are to be elected at the meeting.

Pre-convention meetings or caucuses are being held in a dozen different places in Riverside tonight, the personnel of the resolutions committee being the chief topic of discussion. Public ownership advocates held a meeting and representatives of power companies another. The Arizona delegation held three separate caucuses. Imperial Valley, Coachella Valley and Coachella Valley delegates conferred in a group.

The league meeting will be continued strictly to discussion of the Colorado River power development project and will continue until Saturday night. An effort has been made, Secretary Arnold Kruckman said tonight, to arrange the program in such a way that the Colorado River project will be presented systematically.

POWER PLANS FIRST.

The general project will be outlined first. Power development phases and those relating to irrigation will follow. National, State and interstate phases will be presented, together with the economic phases of the project.

The convention will be opened tomorrow morning at Polytechnic High School auditorium by Secretary Kruckman, who will introduce Dr. R. B. Van Klee, Smid, president of the University of Southern California, as permanent chairman.

Tomorrow's speakers will include Gov. Stephens, E. C. Larue, pioneer engineering explorer of the Colorado basin; Dr. Elwood Mead and Dr. James B. Williken of the California Institute of Technology, national authority on the uses to which electricity from the Colorado River can be put.

Secretary of the Interior Fall, who was asked to speak tomorrow, will not arrive until Friday morning, according to advices received today, and his place on the program has been changed to Friday. He will deliver President Harding's message to the League of the Southwest.

State engineers from seven States are here and later in the week Gov. Hoyle of Nevada and Gov. McChesney of New Mexico are expected.

Delegates are looking forward with keen interest to the addresses of Secretary Fall and Hon. O. C. Merrill, executive secretary of the new Federal power commission. The creation of the power commission is regarded as important in its bearing on the Colorado River situation because it paves the way for a definite and practical start on stream control as a power enterprise. Mr. Merrill's remarks therefore will be heard with interest by all the delegates.

The impression prevailed among all the delegates that Secretary Fall will have an important announcement to make. One report is to the effect that he may announce the appointment by the President of Herbert Hoover as the Interstate Colorado River Commission.

AIR QUEEN WILL BE ENTHRONED TONIGHT.

ELABORATE ENTERTAINMENT ARRANGED FOR GUESTS AT AERO CLUB BALL.

Los Angeles' first queen of the air, chosen by ballot from among a score of the women of the Southland, will be enthroned tonight at the Ambassador, as the big feature of the first annual ball of the Aero Club of Southern California.

Elaborate ceremonies have been arranged for her coronation. Ed Grauman has been appointed master of ceremonies and has promised several novel diversions. In one of his numbers, "The Cloud Dance," seven trained dancers will participate.

A \$10,000 ermine robe, designed by Willard George, will be worn by the air queen on her way to the throne. She will be presented with a gold and silver feather fan by members of the City of Paris firm in honor of Louis Verdier, who lost his life fighting with the Lafayette Escadrille.

Members of foreign aviation corps, who fought in the war will appear in uniform and act as the escort to the queen. An array of fairies, in a miniature air raid, will be prominent in the ceremony. Club officials announced last night that a check of the votes now recorded shows a close race for the honor of being air queen with Miss Annabelle Ralph, Miss Mae Wild, Mrs. Milo Johnston, Miss Carolina Johnston and Miss Emeline Childs as the leaders. A final count of ballots will be made at 8 p.m. today.

Art Hickman's special contribution to the occasion will be his latest dance composition, "The Cloudman's Dream," which will be played during the evening. A special coronation number has also been arranged.

PARISH SALE PLANNED.

The members of the Parish Guild of St. Paul's Pro-cathedral have prepared large quantities of home-cooked food, aprons and fancy articles to be sold this afternoon and evening in the Parish House, 523 South Olive street. The sale will last from 2 to 10 p.m. Women members of the guild will manage the sale.

The Music Department Remains Open Every Evening, Except Sunday, Until Christmas

## Home Gifts and Family Gifts

Add to the PLEASURE OF LIVING and the JOY OF GIVING

There's Much for Boys and Girls to See

Lively little imaginations are quickened pleasantly by the special features Barker Bros. have planned just for the children. For their sakes see that they don't miss—

Mother Goose's Holiday Party (in one of the windows)

The Giant Christmas Tree (just inside the Main Entrance)

Santa Claus and "Twinklins" (from 10 to 12 and 2 to 4 in "The Children's Store")

## Lamps, Novelties and Objects of Art

## ALL FIRES IN FOREST QUENCHED

Six Thousand Acres Are Burned Over Before Blaze is Got Under Control.

After burning over nearly 6000 acres of timber land in the Malibu country since Saturday night, all the fires which have been fought throughout the week yesterday were reported out by County Forester Flintham. All the fighters drafted and sent out by the forestry department returned to this city last night and it is believed the fire damage for the season is at an end.

The flames in Dums and Ramona canyons were reported out yesterday morning after an all-night fight. Another fire to the south which sprung up during the day was promptly quenched. The fire near the Ventura road was reported under control late in the afternoon and at sunset was reported out.

A crew of men is now patrolling the ridges throughout the Malibu in search of new fires. A number of arrests were made recently in the mountain country on charges of incendiarism and it was stated that the actions of settlers in the Malibu will be watched until things have quieted in that section.

## FLASHES.

ARBUCKLE TO DIRECT.

IF NEW TRIAL ENDS WELL FOR COMEDIAN.

By Grace Kingsley.  
That in case of his being finally freed from the charge of manslaughter, for which he is to have a new trial soon, Roscoe Arbuckle will probably go into the directing end of the business, was the statement yesterday of no less an authority than his wife, known professionally as Minta Durfee. "As for appearing on the screen again, of course Mr. Arbuckle won't wish to do that unless he is certain that his old admirers still want to see him," she said, with a quiver in her voice. "But, of course, we can make no plans now."  
Concerning her reconciliation with her husband, Mrs. Arbuckle expressed herself with deep, womanly feeling.  
"I don't think I ever realized the character of my husband," she said. "He has been very brave through everything. We were married so very young that I'm sure I did not appreciate him, nor did I understand him. Perhaps we both understand each other better now."  
"Yes, we shall remain at home in the West Adams-street house. It seems very nice to have the quiet and roominess of it to come to after the awful strain we have been under. It was very pleasant, too, to meet my sister, whom I haven't seen for so long. If the new trial permits, we expect to spend Christmas here at home."  
Asked whether she expected to return to professional life, Mrs. Arbuckle said she might possibly do so later, but that she was too tired, and things were too uncertain for her to plan anything at present.

Mrs. Arbuckle is known to have said to friends that she blamed herself for all the trouble between herself and her husband, stating the reason for their misunderstanding was her own youthful impulsiveness.  
The comedian went over to the Lasky studio, yesterday, and is expected to have had a conference there. Just what the upshot of it was, naturally isn't announced.  
The West Adams house is to be retained, according to Mrs. Arbuckle, who denied the rumor that it might be sold.

It's Hobart Henley.  
It seems that after all it is Hobart Henley and not Hobart Bosworth, who is to direct "Priscilla Beaudant" at the Casino Theater, which is to be a Columbia picture. The misunderstanding arose through identity of the first names.  
Hobart Bosworth is at present planning the production of the picture, which will be a film version of the famous old story, "Scottish Chieftain." It is likely it will have a simpler name when it goes on the screen.  
The picture is to be made at the San Mateo studios, where his former picture was produced, and work will be commenced about the middle of January. Mr. Bosworth says he doesn't know as yet who his director will be, though he is figuring with two well-known ones.

Tolly Announces.  
It looks as if the dear old 10-cent picture is dead forever. He had the \$1 picture, and thought we were paying a lot of money to see mere ghosts of our favorite. Then the price hit \$2, but it remained for Richard Walton Tully, who has just arrived here, to come forward and announce that the \$2 picture is at hand.

As might naturally be expected, said \$2 picture is to be a Richard Walton Tully production, and as might also be expected said picture is to have Guy Bates Post as its star. The picture will be "The Masquerader."  
The reason Mr. Tully feels justified in announcing that you'll get your \$2 worth when you see "The Masquerader" is not only that he intends to make "The Masquerader" one of the most complete productions the screen has seen, that James Young is to direct, and that an all-star cast will be seen in it, but he counts on the tremendous popularity and real artistry of the star, as well as on the amazing vitality of the picture itself.

Mr. Post has made a record over almost every other stage star. He played "The Masquerader" in this country and in London during several seasons past consecutively. He has just closed his tour of the piece in the 29th street theater, during which he has been charging \$3 admission.

He could probably keep on indefinitely with it, especially as he has had offers from Australia and other places, but is closing in order to make the picture. He will arrive here about the 20th inst. and will at once commence work at the Brunton studios under direction of James Young. The cast is not yet selected.

Rumors to the contrary are set at rest by the statement of Tully to the effect that Mr. Post positively will appear as the leading role of the "Omar the Tentmaker" picture.

Norma Talmadge's Plans.  
Following a few weeks' holiday, Norma Talmadge is preparing to settle right down to work again. Her director, as heretofore, is announced exclusively in this column, is to be Frank Lloyd, well-known for his production of the notable feature, including "Tale of Two Cities," "Les Miserables" and others.

Now it seems that Mr. Lloyd is once more to make a costume picture, this time a pictureization of one of Balzac's novels, with Miss Talmadge in the star role. The production is to be an elaborate one, with a cast of popular and well-known players appearing in support of Miss Talmadge.

Frances Marion is to aid Frank Lloyd in writing the continuity of the story, work which will be commenced at the Brunton studio within a fortnight.

Charles Ray in East.  
It took Charles Ray to prove to effete New York that the West isn't as woolly as it's been pictured. Ray arrived in Gotham last week, and was his first job to give everybody in general expected to view him as either a long-haired hick or a traditional cowboy.

## Glimpses of "Prince There Was."

THOMAS MEIGHAN AND MILDRED HARRIS.

Thomas Meighan and Mildred Harris. Also Charlotte Jackson, who have featured roles in film adaptation of George M. Cohan comedy, which is to show next week at Grauman's.

Collier, who sprang various friendly jokes at his expense while everybody applauded.

His second afternoon in the metropolitan he spent with Mrs. Ray, Richard Willis, general manager of the picture, and Arthur S. Kane, his producer, at the Columbia-Colgate football game.

Sunday night at the Casino Theater came near to being California night because three headline attractions on an all-star charity program were contributed by Mr. Ray, Will Rogers and Marie Paddock, the singer.

The Ray party occupied seats in the pit, and the star was called upon for a speech. Then borrowing a hat, he passed among the audience, taking up a collection amid a shower of applause. Later he became a doll auctioneer. Mr. Rogers gave one of his inimitable monologues.

According to the New York papers Ray intends returning soon to his studio here to finish his series of pictures. He is making a number of scenes in Boston and New York for "Smudge."

Mrs. Huntress to Entertain.  
Mrs. Mary Huntress, who plays an important role in the Superba in "The Millionaire," is planning to entertain a large dinner party at her home the day before Christmas.

Read Studios Busy.  
The prevailing inclination toward film holidays has apparently as yet not permeated within the walls of the Read studio. Instead of lessening production, new pictures were started there this week. Wanda Hawley and Mary Miles Minter, both appearing in several pictures, are completing short vacations and started work again under the direction, respectively of Thomas Heffron and Frank Lloyd.

The other three Read stars, Bebe Daniels, Constance Binney and Mary Miles Minter, are in the midst of current productions, thus giving Read a 100 per cent production record.

Pasadena Symphonies.  
The first of a series of four symphony concerts will be presented at the Pasadena High School Auditorium, Alice Gould Hall, under the direction of Walter Henry Rothwell, next Friday evening at the Pasadena High School Auditorium. Alice Gould Hall is soloist. The symphony will be Brahms' No. 1.

HUGHES HELPS "PINAFORE."  
Rupert Hughes, the author, who was a major in the great war, has become an enthusiastic member of the American Legion, Los Angeles Post No. 8, and is devoting all the time he can spare from the studio to the production of the forthcoming production of "Pinafore" at the Philharmonic Auditorium. This Gilbert and Sullivan opera will be given under the auspices of the Legion during the week before Christmas, with an all-star cast, in which figure many picture players of note.

HEARING IS CONTINUED  
Broadway Shooting Case Put Over for Two Weeks.

The preliminary hearing of Ira Weiss, charged with assault with intent to commit murder upon Manley M. Sax at Seventh street and Broadway, last November 18, was continued yesterday by Justice Hanby, until December 21, owing to the condition of the injured man, who is in the hospital and could not appear in court.

K. M. Doan and B. C. E. Roos, witnesses of the shooting, testified that while Harry on the sidewalk the defendant said "I did it. I did it."

Attorney Warren L. Williams for the defense indicated that by his questions that self-defense will be argued for his client.  
Dep. Dist. Atty. Costello is conducting the prosecution for the people.

## RADIOS.

VICTOR HERBERT TOUR.

LESSER ANNOUNCES EARLY VISIT BY COMPOSER.

By Edwin Schallert.  
That arrangements have been made whereby Victor Herbert, composer and conductor of comic operas and as a musical conductor, will appear for a two weeks' engagement locally, was the announcement by Sol Lesser, vice-president of the West Coast Theaters, Inc., who returned to this city from a seven weeks' stay in the East yesterday. Mr. Lesser was given a warm greeting upon his arrival by members of the organization of which he is vice-president, besides a large delegation of picture folk.  
"We have arranged a contract with Mr. Herbert whereby he will appear at the Kinema Theater for a period of two weeks, presenting three musical programs, and during which he will make appearances at some of the larger picture theaters. He will bring with him a number of players of his own, whose forces will be augmented by the Kinema orchestra."  
Mr. Lesser also made arrangements for the appearance of several other prominent musical artists at the Kinema Theater. During his stay in the East he also made plans for expansion in his theatrical interests. Incidentally he completed the releasing deal for "My Boy," the Jackie Coogan production.  
Mr. Lesser stated that Mr. Herbert will appear here the latter part of January or first of February.

From Road to Stock.  
The western production company, which recently went on tour in "A Successful Calamity" by Clara Kummer, has settled down to the dolce far niente life of a stock company in San Diego. The organization was rehearsed in the Kummer play by Miss Neely Dickson of the Hollywood Community Theater, and the players are, built up a very gratifying reputation for Coast productions while on the trip.

The stock engagement at Long Beach will last for a period of ten weeks. The opening presentation will be "A Successful Calamity," followed by "Nothing But the Truth," "The House Next Door" and other successes.

In the company are Alma Francis, Boyd Irwin, Ruth King, Phyllis Connard, Almes Thorland, Charles Gregg, Rose Forrester, Raphael Brunetti, Harold Matthews, M. Gillette and E. Hertzig.

Young Corrigan Directs.  
Lloyd Corrigan, the son of James Corrigan and Lillian Elliott (in private life Mrs. James Corrigan) is now directing plays presented by the Fairbridge and Karna stock company in Phoenix, Ariz. Only 21 years of age, he jumped from the dressing-room to the director's chair to fill an emergency vacancy, owing to the sudden absence of the regular director.

His first play, "Old Lady 11" was such a success that he has been retained permanently in the directorial capacity. Lloyd Corrigan was formerly at the Morocco Theater here.

Vera Gordon Headliner.  
Vera Gordon, famed on the screen as the portray of the mother role in "Humoresque," is to let her voice be heard here week after next. She is headlining of the bill at the Orpheum, appearing in a playlet called "Lullaby."

Opera Cast May Reside.  
It begins to look as if several members of the Beggars' Opera Company may be future residents of Los Angeles. Miss Vera Hurst, who portrays Lucy Lockit, has purchased two lots on Los Feliz road, the Jamn tract, and one of the two other members are considering becoming landowners. They like the sunshine.

Huge Band Bill-6.  
A band composed of young musical lights from every high school in the city is announced to play at Grauman's Theater the week beginning the 26th inst. These young men were in training camp at San Francisco this summer, and played for the Chamber of Commerce industrial exposition.

Gillingwater Stays.  
Claude Gillingwater is to continue his appearances in Goldwyn films. He has been engaged for an important character part in "The Rust Flower," in which Helene Chadwick and James Rennie have the leads, while Mona Kinsley appears as the "polite" heavy.

In Case You Want to Know—  
The closing of the engagement of "One Arabian Night" is definitely announced for Friday night at the Kinema Theater. This is a Pola Negri picture.

Nigel Barrie, who has been absent from the screen for a season or two, is to return in "A Prince There Was," the Thomas Meighan picture, which will show next week at Grauman's.

Anna Q. Nilsson is now in Italy acting in "The Man from Home." Burr McIntosh has been engaged for the role of Big Bill in William Faversham's revival of "The Squaw Man."

Charles Kynon has provided a new story titled "Fame," dealing with the operatic stage, for the Goldwyn Company.  
Oro Carew has been engaged to appear opposite Bert Lytell in "Danger," directed by Bayar Veiller.

Dagmar Godowsky is reported to have an offer to go into vaudeville, and may accept. Frank Mayo will stay "to home."  
Fenrhyn Stanilaws will return next week from New York where he has been enjoying a vacation. George Melford, accompanied by his wife, has gone back to Ottawa, Canada, to spend the holidays. New pictures in January.

Meighan Film Cast.  
Casting of Thomas Meighan's new picture, temporarily titled "The Proxy Daddy," is about completed, and the outcome is Leatrice Joy in the feminine lead, and Claude Wayne, Adele Farrington, Laurence Wheat, J. F. MacDonald, Charlotte Jackson, Patay Mark, Bobbie Jackson and the De Brice twins. This is a picture adapted by Olga Printzlau from a story by Edward Peple, who wrote "The Prince of the Palace." Alfred Green, who filmed "Little Lord Fauntleroy" will direct "The Proxy Daddy."

TRAFFIC GUIDED BY BOY SCOUTS

Help Officers Busy Street.

"Walking" at Corners Blocked by Lads.

Students Show Increase Over Month Ago.

SCHOOL ZONES

On every street approach to a school stands this "School" sign.

Why children are always liable to be crossing the street or at play on the sidewalk or playground, and every moment may dash in front of your car and be injured.

You cannot anticipate that children are going to do that. They lack judgment, they become excited or frightened and are always in their play that they forget everything.

Every good citizen will watch for the sign and protect the children.

Boy Scouts yesterday acted as traffic officers at Seventh street.

They directed their efforts to commonly called "jaywalking" on Los Angeles boulevard corner at the business of the day, form 4 until 5 p.m.

Then the Los Angeles Safety Council, which is in charge of the campaign of education to reduce accidents in this city, appealed to the Police Department for additional officers to work as traffic officers during No-Accident Week.

Police officers were available. Boy Scouts volunteered.

Boy Scouts offered their services and late yesterday they were seen with a large force there will be few accidents. These boys, eight in all, pointed out to pedestrians the "no" and "stop" signs, a direct automobiles and cars should be obeyed by drivers.

Many instances of the lack of four corners clear of vision, traffic in the street, and more freely and it was not the opportunity for them in insisting that pedestrians should be on the street with the signal.

Police officers on duty saved their assistance and "jaywalking" is a crime.

Blackstone's

Blackstone's, the Christmas Store, Radiantly Ready

With Thousands of Beautiful, Practical Gifts that ideally express loving Remembrance between all ages

25% OFF ENTIRE STOCK Blackstone FURS

—This 25% reduction is taken at time of sale—Off the marked Prices, and many of these marked prices represent reductions already taken.

—Whether for your own use or for Christmas gifts, buyers will derive quite a good deal of pleasure and profit in choosing from the many wonderful pieces of Blackstone Furs in the Christmas sale at 25% off marked prices.

—The values are obvious and there is a most comprehensive collection of modishly attractive styles from which to make selection.

—Every fur-bearing animal with pelt of commercial value is represented at its very best.

—In the matter of Christmas gifts for women, we do not know of anything that would receive warmer welcome and be more thoroughly appreciated.

—In the common sense age we live in, furs are more desirable than diamonds.

FUR COATS, WRAPS AND CAPES, MARKED PRICES \$15.00 TO \$125.00.

—FUR STOLERS, SCARFS AND CHOICES, MARKED PRICES \$25.00 TO \$45.00.

25% Deducted at Time of Sale

THIRD FLOOR—BLACKSTONE'S

Smart Winter Hats \$12.75

—And when we say smart, we mean that they are beautiful and distinguished enough for the most fastidious woman to wear on almost any occasion throughout the Winter season.

—In the amazingly wide diversity of shapes, one can almost claim some difference in the mode for each individual preference.

—Turbans, tricorne, salons, tams, off-the-face styles and small and medium brimmed hats in every fashionable variation of line, trimming and color treatment.

—Charming Hats of velvet, Hatter's plush, duvety, metallic fabric and felt.

—Elaborately or conservatively trimmed as the case may be.

—It is unnecessary for us to say that these Hats are far below their regular value at \$12.75.

SECOND FLOOR—BLACKSTONE'S

New Street Frocks Of Silk and Wool \$48.00

—You may know that we consider this sale of women's and misses' higher cost Frocks for street and afternoon wear of much importance to our customers, when we devote advertising space to it which ordinarily would be given over to gift merchandise appropriate to the season.

—The remarkable value-features of their presentation furnishes delightful excuse for one's thoughts straying from Christmas and Christmas shopping.

—Some of the handsomest styles introduced early this season at prices about twice as much as \$48.00.

—Dresses of wool (twill and tricotine), elaborately embroidered, braided and appliqued.

—Coat, straightline and panel effects.

—And the Canton Crepe Dresses are fascinatingly smart with uneven hems, unusual sleeve and neck lines.

—All fashioned and trimmed in a way to make them irresistible. A wonderful purchase from several of our best manufacturers makes possible this remarkable event in Frocks at \$48.00. All sizes from 16 to 44.

THIRD FLOOR—BLACKSTONE'S

12 Button Length French Kid Gloves \$4.65

—Because they are priced at about one-half their real worth does not make them any less desirable for Christmas gifts.

—Slip-on and mousquetaire Gloves for dress and street wear.

—The twelve-button styles are in white only.

—The Slip-on models are shown in brown, tan, beaver and white. Sizes 5 1/4 to 7.

FIRST FLOOR—BLACKSTONE'S

Night Robes and Envelopes in Sale Philippine Lingerie \$2.75

—Exquisitely Dainty, Hand-made, Hand-Embroidered Garments of finest texture.

—To women of a practical turn of mind who naturally give heed to the everyday minor matters of the wardrobe, a set of this delightful hand-made Lingerie would receive the welcome it deserves.

—Garments, hand-fashioned of fine, sheer nainsook and hand embroidered in artistic floral designs of a wonderful delicacy.

—The night Robes come in round and V neck models with kimono sleeves or sleeveless.

Capt. John D. Fredericks.

**NOMINATE CHAMBER OFFICERS.**

Capt. John D. Fredericks Selected by Committee to be President of Body.

Capt. John D. Fredericks will be the president of the Los Angeles Chamber of Commerce for 1922 if the electors of that body, at the balloting on next January 11, ratify the choice made by the nominating committee of the chamber at a meeting yesterday afternoon. The list of nominations for office in 1922 is as follows:  
 President, John D. Fredericks.  
 First vice-president, W. T. Bishop.  
 Second vice-president, William Lacy.  
 Treasurer, Sylvester L. Weaver.  
 Chairman, Committee on Commerce and Mercantile Affairs, J. M. Schneider; chairman Committee on Agriculture and Horticulture, G. Harold Powell; chairman Committee on Manufacturing, A. F. Osterloh; chairman Committee on Harbor and Foreign Trade, Marius DePrabrant; chairman Committee on Reclamation and Power Development, Lucius K. Chase; chairman Committee on Federal and State Affairs, Robert N. Bulla; chairman Committee on Transportation, Shannon Grandall; chairman Committee on Laws and Legislation, Walter K. Tuller; chairman Committee on Publicity and Statistics, D. E. McGarry; chairman Committee on County and Municipal Affairs, R. W. Fritcham; chairman Committee on Building and Expositions, John P. Burke; chairman Committee on Immigration and Industrial Relations, Maynard McFarlane; chairman Committee on Boulevards, Parks and Roads, Paul Hoffman; chairman Committee on Membership, Clinton E. Miller.

**MISSIONARY WORKER DIES.**  
 Miss Margaret Lacy, who has been engaged in missionary work at the Home-Tabernacle Mission and Clinic, died Tuesday at the Angeles Hospital following an operation. Funeral services will be conducted at 2 p.m. today at the Mission, 2423 Violet street. Rev. Mr. Fitzgerald, mission pastor, and Rev. Bob Schuler, pastor of the Trinity Church, will conduct the services. The burial will be in Evergreen Cemetery.

**VETERAN IN SERIOUS FIX WANTS AID.**

Pathetic Appeal is Made to Shriners by Family Man Who Served Country.

Five little children crying of hunger—  
 For five days their only sustenance, cocoa made with water—  
 Only two chairs in the house—  
 This sums up a report turned into the Shriners' Christmas relief headquarters, 729 South Spring street, yesterday by one of the investigators, following an appeal for work, sent in by the father, a World War veteran, who is about to lose the little four-room home which he is buying for his wife and babies.

Investigation also revealed the touching devotion of the ex-soldier for his six-month-old babe, born with crooked feet. That the little one may become straight and strong the parents are taking it into the clinic for treatment each week. Nickels when obtainable, are needed for food, and so the father with the baby in his arms trudges the many miles that lie between his home and the clinic.

Here is the appeal made to the Shriners' red-fuzzed Santa Claus by the father in behalf of his wife and little children:  
 "Dear Santa Claus: You will perhaps be surprised to hear from an old person as myself, but I am going to ask you for a Christmas present. I am a father of five children and have been out of work a long time. We are in bad circumstances, but I am not asking for aid, only things I would like for a Christmas present is a steady job. If you can get me one it will be a kindness that will fill our hearts more than anything else."  
 "I have been trying hard to get a home for myself and I put up a four-room house out here on a street and now I am about to lose it because I can't meet my bills which I owe on it, because I have not had the work."  
 "I am a Spanish-American War veteran and a World War veteran. I am 38. If you can get a job for me I sure will be glad."  
 The Shriners' Christmas relief committee, under chairmanship of Motley H. Flint, wants to help the veteran and the members of his little household. There are hundreds of other calls for Christmas relief, equally as pitiful and urgent, to be answered again this year. And the committee needs the cooperation of the city's philanthropic men and women in order that these appeals may be met. Donations of food, clothing, bedding, stoves, household goods of most any kind, toys and books, may be sent to the relief headquarters, 729 South Spring street, or they will be called for if notification is made to Mrs. C. A. Elchhorn, telephone 12121.

**Quarrels With Wife. Returns to His Mother.**

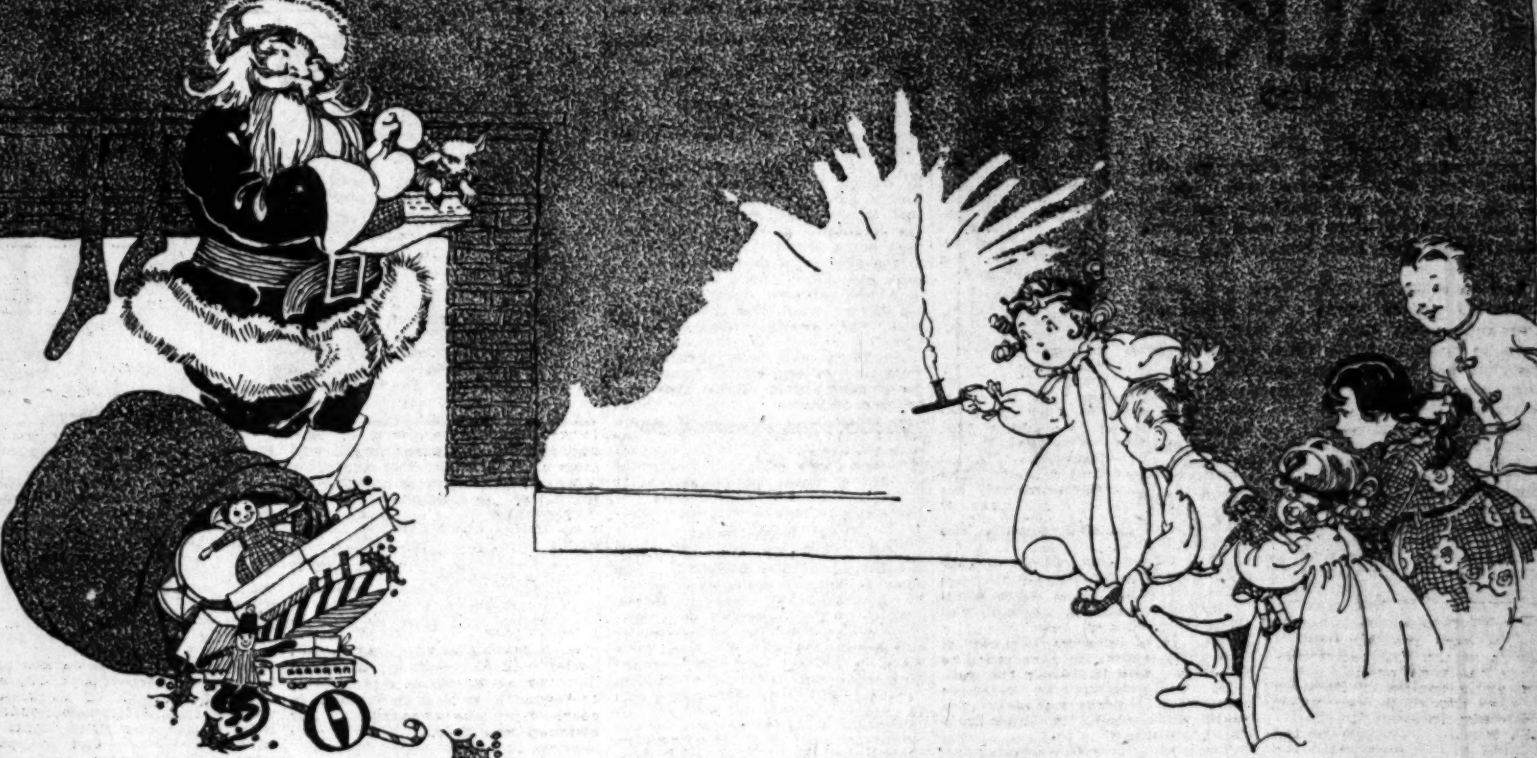

Evidently when Thomas H. Hemingway went home to his mother after he had quarreled with Ora M. Hemingway, he received little sympathy, for that same day Mother Hemingway took back her son to his wife. But the return was not permanent, as Mrs. Hemingway yesterday sued for divorce charging cruelty.

After the couple separated on November 14 Mrs. Hemingway returned to her parents. Recently, the complaint recited, Mr. Hemingway's fingerprints were found on the window-sill outside his wife's home and his footprints beneath her window.

The couple were married Aug. 29, 1920, states the complaint, which was prepared by Atty. Morris M. Ferguson.

**Concerning Toytown at The Broadway**

—Do you know this thriving metropolis? Have you walked its busy streets? Have you listened to the babel of sound that is the result of hundreds of eager little voices, exclaiming over this Toytown feature and that? Have you met its presiding genius, Santa Claus, a gentleman who daily receives more than five hundred visitors and has a chat with each? Have you let yourself be influenced by the gladsome Christmas spirit which prevails from end to end, from side to side of the place?

—If not, then you have a wonderful pleasure still in store. Even if you come to Toytown as a spectator only, you'll have a good time; if you come with the idea of making a merry Christmas for some little folks of your acquaintance, you'll have a much better time! Which reminds us that

**There Are But Fourteen More Shopping Days Before Christmas!**

—Don't forget that ominous proverb about procrastination! Lay your plans to make an immediate trip to Toytown, that you may choose the toys which will give so much happiness on the coming holiday. Remember, it doesn't take much to make a child happy.

**We Have Tons of Toys For Girls and Boys**

—A new carload, received within the last few days, has freshened up stocks in a manner truly delightful. It seems as though Santa Claus' many proxies will find it the easiest thing in the world to make selection from our admirable supplies.

### I WILL SELL 75 ORIENTAL RUGS AT MY COST

By "My Cost" I mean the price I actually paid for them—not even the freight nor the cost of selling added. I won't even include the cost of this announcement.

I have a good reason for doing this. I had a splendid Oriental Rug business here up until 8 years ago—the Iran Co.—of which I was founder and manager.

Many of my old friends and customers will remember me. As a matter of fact a number of them have already told me they are glad I'm back—and so am I.

And so to impress all my old friends with the fact that I am back in business again, and to enlist some new friends and customers for the future, I am willing to completely forego my profits on these 75 rugs.

They are small sizes—Belouchistans, Pergamas and Mossuls. I have divided them into these groups:

- Group No. 1—I will sell at \$17.50 to \$25.00
- Group No. 2—I will sell at \$25.00 to \$35.00
- Group No. 3—I will sell at \$35.00 to \$45.00

If by this sacrifice of profit I can renew old acquaintance and patronage and make some new friends I shall feel well repaid.

### Give the Gift of Worth

#### A Safe 6% Income

Gifts that soon perish are soon forgotten. Make your gift a lasting one.

The Full-Paid Investment Certificates of the State Mutual Building & Loan Association provide a method of giving that will be long remembered. In addition to their unchanging cash value, they provide an income of six per cent payable semi-annually. Thus the giving is renewed every six months and with it the sincere appreciation and gratitude of the recipient.

In times like these a gift of one of these Certificates is especially recommended. It is right in line with the idea of conservation. You conserve money instead of spending it for things that are not really necessary, and you place it where it will be of great benefit to others.

These Certificates are safe, simple and profitable. They are issued in denominations of \$100 and can be quickly arranged for by mail or a personal visit to our offices.

### RUSH VIADUCTS, COUNCIL URGED.

#### City Planners Demand Haste in Plaza Project Links.

Want Bridges Over River at Three Main Streets.

#### Rail Board's Decision Told Exclusively in "Times."

Urging the necessity of building a series of viaducts at the earliest possible date and in conformity with the reaffirmed recommendations of the State Railroad Commission in its order of yesterday, the City Planning Commission during the afternoon asked the City Council to hasten the building of viaducts over the Los Angeles River at Macy, First and Seventh streets.

This work, which will be a part of the big Plaza union passenger terminal project, will be done jointly by the city, county, State and railroads. The City Planning Commission asks that the Board of Public Utilities estimate the cost and allocate the proportion to be paid by each participant.

It has been pointed out to the City Council that viaducts are seriously needed because 700,000 persons cross the river each day at the places in question. The gates are said to be closed one-fifth of the daylight hours, and the First-street viaduct, according to the City Planning Commission, is a menace to public safety.

As exclusively told in The Times yesterday morning, the railroad commission reaffirmed its decision of April 26 in which it ordered three local steam railroads to proceed with the construction of a terminal at the Plaza. It amended the order in some particulars, but fixed a definite date for the completion of the improvement. The Pacific Electric was taken clear out of the case.

#### TWO IMPORTANT POINTS.

The new order embodies two important points. It admits that in the original order there was not sufficient justification for including the interurban line in the Plaza terminal project; it also sets aside its order concerning the selection of a representative committee to prepare plans for the proposed improvement.

It states specifically that it has full jurisdiction in the matter of ordering such a terminal built and instructs the railroads, namely the Salt Lake, Santa Fe and Southern Pacific, to choose their own engineering committee, and within six months from Jan. 3, 1922, which is the date upon which the new order becomes effective, file with the commission plans and estimates of cost for the terminal.

The railroads are by that time to have arrived at an agreement as to the proportion of expense each is to bear in the cost of the site and building, and in the event that they fail to do so the commission will decide for them. Construction is to be commenced within ninety days after the plans have been approved, and the terminal is to be finished within three years from that date.

#### AWAIT NEXT MOVE.

Just what the next move of the railroads will be is not known, as attorneys for the Salt Lake and Santa Fe could not be reached yesterday, but Frank Karr, attorney for the Pacific Electric, and associate counsel for the Southern Pacific, hinted that if he were handling the case he would file an application for a rehearing. He admitted that an application would be denied, and stated that in such an event he would file suit for a review by the Supreme Court.

"It appears unlikely that the commission has full jurisdiction in the terminal matter," said Mr. Karr. "No longer ago than August, in the case of the city of Cleveland, the Interstate Commerce Commission, after all the interested parties with the exception of one railroad had agreed to join in the construction of such a terminal, ruled that jurisdiction was vested in the Interstate Commerce Commission and vacated the order to construct."

Speaking of the elimination of the Pacific Electric from the order, Mr. Karr expressed the opinion that the interurban, through this order, has been tied so tight it can't wiggle. He says the company hoped to be allowed to get out of the traffic congestion by viaducting out of the city, but that the present plan will prevent this. He asserted that if the order should hold it would set the interurban back twenty-five years.

#### GRADE CROSSINGS.

Concerning the elimination of grade crossings and the construction of viaducts over the Los Angeles River, in which the city is required to take the lead, the order says that all parties concerned must be ready to proceed with a definite plan within sixty days from Jan. 3, 1922. The work must be completed within two years.

Referring to the proposal of the Southern Pacific, Salt Lake and Pacific Electric to make the present Southern Pacific station a partially unified terminal and bringing trains to it by means of a trestle direct from the Los Angeles River, the commission points out that this plan would not eliminate all grade crossings and would be only a partial and unsatisfactory solution of the terminal question, adding: "The commission has, however, also of the opinion that the only method of eliminating grade crossings from Alameda street is to remove all main line traffic therefrom, but found that this can only be safely, effectively and satisfactorily accomplished by the construction of a depot at the Plaza."

#### PLAZA DEPOT REQUIRED.

After discussing the legal questions raised the commission expressed its confidence that it has full jurisdiction in the premises and proceeds to a consideration of the evidence presented in support of the Plaza site. It is pointed out that of the five detailed plans submitted all but the Southern Pacific-Salt Lake plan called for a union passenger depot at the Plaza. The Elton Arnold report and other evidence are cited in further support of the commission's findings. Summing the evidence on this point the commission says: "That public convenience and necessity require the construction of a union depot at the Plaza is supported by abundant evidence. The very first witness who took the stand, Mr. Stornow, began by stating that any

### IS YOUR CHILD PHYSICALLY FIT?

If your child is not physically fit it is your first duty to find out what is the matter with him. Do you know how to proceed to this end? The Times offers you the best information in the world in a specially prepared booklet on the school child's health.

It tells you how to test his eyes, his hearing; how to overcome flat feet; how to regulate his appetite; how to forestall tuberculosis, and what to do when he gets contagious diseases.

Stop right now. Take stock of your child's condition. Use this booklet as a guide. It is free. Send 2 cents in stamps and the following coupon to The Times' Washington Bureau and the booklet will be sent to you.

Frederick J. Haskin, Director, Los Angeles Times' Information Bureau, Washington, D. C.

I enclose herewith 2 cents in stamps for return postage on a free copy of "The School Child's Health."

\*\*\*\*\*

comprehensive plan for the entire elimination of grade crossings involved the construction of a new union depot, and that such a plan for grade crossing elimination was not applicable to any location for a union depot except the Plaza. Much testimony was thereafter given and much argument made to the effect that a complete and satisfactory solution of the grade crossing situation was dependent upon a union depot at the Plaza and the commission finds this to be the fact. That such a finding is amply supported by the evidence we entertain no doubt.

#### SCANT FACILITIES.

Discussing the present passenger depot the commission declares the Salt Lake depot, built at a cost of \$10,000, is shamefully lacking in facilities for a city of 600,000 people. The Santa Fe station is said to provide "scant facilities for the use of passengers." As to the Southern Pacific depot its continued use is declared not to conform to any satisfactory plan for the elimination of the grade crossings on Alameda street. The imperative public necessity, the commission adds, for the elimination of these grade crossings is a complete answer to the claim that the order requiring the abandonment of this depot amounts to a taking of property without compensation.

Referring to the cost of the proposed union station the commission says: "In arguments on rehearing considerable stress was laid upon the alleged cost of a union passenger station at the Plaza. The matter of cost was thoroughly discussed in the former opinion; it only remains to add that a very large expenditure on the part of all the carriers will be immediately necessary irrespective of what plan the commission might adopt. Under the Southern Pacific and Salt Lake plan, approximately \$17,000,000 would have to be expended. The commission is convinced that the needs of the public will not be met by this plan but believes on the contrary that public convenience and necessity require a complete and satisfactory solution of the grade crossing and terminal question, and that, therefore, public convenience and necessity not only justify but require the added expense necessary to such a solution."

#### UNION PACIFIC AID FOR PORT IS LAUDED.

REDUCTION IN FREIGHT RATES PRAISED BY CHAMBER'S FORMER HEAD.

Maynard McFie, former president of the Chamber of Commerce, at Tuesday's meeting of the harbor affairs and foreign trade committee of the chamber, praised the recent action of the Union Pacific in encouraging and fostering shipments through Los Angeles Harbor by reducing export freight rates on iron and steel products from eastern points to the harbor.

"We have heard a lot of propaganda lately," said former President McFie, "against the Union Pacific, which now owns the former Salt Lake lines to Los Angeles Harbor, but I want to say that the action of the railroad in reducing rates for shipments to the Far East through Los Angeles Harbor is the first encouragement the port has had at the hands of any railroad, and Los Angeles should appreciate the action taken."

SAYS WOMAN  
VAMPED HIM.Dr. Petter Testifies in  
McWhirter Suit.Swears He Was Ruined by  
Her Attention.Paints Pitiful Picture of  
Wrecked Life.

Countercharging that it was he and not the woman in the case who was vamped, Dr. Reginald S. Petter, now being sued in Judge Houston's court for \$10,000 damages by Mrs. Gertrude McWhirter, yesterday painted a pitiful picture of a wrecked home, a depleted fortune and a ruined reputation as the result of the persistent efforts of Mrs. McWhirter to secure his love. His home he has regained, he declared, but his fortune and his reputation have flown because of the sensational charges of the woman.

Testifying in Dr. Petter's behalf, a number of medical experts labeled the story of the woman as "plain hysteria." Any thoughts she may have had of seeking with her soul through a moon-stricken forest could have been superinduced by but two things, they declared—hysteria and opium—and the latter has not yet been mentioned in the case. The experts declared that the drugs mentioned by the plaintiff in the action, namely, chloroform and morphine, would not produce such dreams as were related.

**DR. PETTER TESTIFIES.**  
At the close of the afternoon's session Dr. Petter took the stand in his own defense. Scarcely, if ever, did he raise his voice in relating the circumstances of his relations with Mrs. McWhirter. But finally, toward the close of the afternoon, he leaned forward on the stand and, looking square in the face of the woman who charges him with a hideous crime, he declared, in a tense voice:

"That is the woman who is responsible for it all. She accuses me of making a physical wreck out of her. She has made one out of me. She has done more—she has wrecked my life and my happiness, my home and my fortune and—here he paused—and my reputation."

Dr. Petter, led by the questions of his counsel, traced his life since the time Mrs. McWhirter first went to his office. He declared that on countless occasions he had attempted to get from under her spell. It was impossible, he said. She followed him wherever he went. When he visited his patients she went with him; when he arrived in the office he found her there and she did not leave him until night.

**RENTED APARTMENT.**  
"She begged me to take her as my wife," he stated. "I refused, but she persisted. Finally I weakened and we rented an apartment. This lasted a month and every time I made a move to leave to return to my wife she opposed it. She declared she would see me in the grave before she would let me go back."

Then Dr. Petter fled to New York, he declared. He stated that he remained in the East a year and then came back. Since that time he has effected a reconciliation with his wife.

A few days ago Mrs. McWhirter testified Dr. Petter gave her a gun.

Give Your Hair A  
Treat!

Wife Seeks Divorce After  
Couple Try Twice to Get  
Along Together.

Although they didn't get along during one marriage period they thought they would try again and so said "I do" for the second time. But it was no use, for yesterday Annie B. Myers sued George W. W. Myers for divorce, charging cruelty.

The complaint, prepared by Attorney Klinton Ellis, states that the couple were married originally June 15, 1911, and separated May 18, 1918. Mrs. Myers was subsequently given a divorce but on June 21, 1918, the pair were remarried. But the union lasted only until Oct. 25, 1920.

Mrs. Myers states in her complaint that her husband is about to receive a division of an estate which amounts to \$10,000 and she asks that this be declared community property.

with which she was to kill a fortune teller who threatened to come between them. Yesterday the witness stand Dr. Petter denied any such incident. He stated that he had a gun in his desk and that Mrs. McWhirter found it one day and said that the fortune teller had made advances to her the last time she was to see him and that when she went again she was going to protect herself. Dr. Petter declared that he had never taken any interest in the clairvoyant.

The doctor will resume the stand this morning and will be cross-examined by Attorney J. E. Brown, counsel for Mrs. McWhirter. The case will probably go to the jury tomorrow.

TELLS TALE OF  
DENTON MURDER

(Continued from First Page.)

Richard C. Peete, her husband, in Montana. The girl is now 5 years old. Mention of her name during the night journey caused Mrs. Peete to break from her story and wipe her eyes.

"I would have a long way to swim if I escaped," said the prisoner as the ferry neared the dock. The remark was made in jest, but was accompanied by a sob.

The woman and the officers neared the gate.

"I can't go in," she cried, almost fainting.

"She fell against the steel portal, but was aided on by Deputies Denison and Yaw. She later broke down in the prison."

Mrs. Peete was weak and tired from the long talk she had with Deputy Denison. Her account of the murder lasted six hours, ending after 1 a.m.

Mrs. Peete's number here is 35672 and her entry makes thirty-five women in the prison and a total of 2141 prisoners. She was met at the gate by Captain of the Guards M. Clark.

She will not be put to making hemp bags, but will aid other women prisoners in taking care of the women's ward.

**STORY OF CRIME.**  
The story of the crime, as related by Mrs. Peete to Deputies Yaw and Denison, is essentially the same as Mrs. Peete told to The Times in November. Briefly, in its main aspects, the story was as follows:

She said she leased the house May 24, that Mr. Denton was not shot until August 14, and that from June 2, the date of the man's disappearance, to August 24, Mr. Denton was in and out of the city, presumably on business. On the night of August 14, she said, Mr. Denton and another woman, at that time married but now separated from her husband, arrived at the house shortly after a prominent business man left the house.

Another man, a friend of Mr. Denton, was also in the house. Later the first man returned to the house. Mrs. Peete says she and the other woman were on the second floor when they heard a shot.

They entered the servant's dining room and saw Denton reaching for his revolver. The other man held a gun in his hand. This man later told Mrs. Peete that Mr. Denton was taken to a hospital. That was the last she saw of him. Mrs. Peete said.

**LEAVES FOR DENVER.**  
The man responsible for the shooting called at the house several days in succession, she said. Five days after the shooting she left for Denver. Mrs. Peete told the officers. Mrs. Peete did not explain how the body found its way into the basement, where it was found Sept. 23, 1921.

She said she said Mr. Denton's clothes to "get even" with him because he had not placed the sale of his house in her hands, as promised and thus kept her from earning a large commission. She said she had possession of Mr. Denton's diamond ring and other property some time before the tragedy. She also added that she left Denver to come here after she was assured that if she "sat tight" everything would be fixed up and was warned that she was "already in a bad fix." She held back the true story because of reasons relating to her family, she said.

## ASSAULT IS CHARGED.

Accused Hold-up Held Under Bail  
For Trial.

Justice of the Peace Forbes Tuesday held Frank Meyer in \$5000 bail for jury trial in connection with the attempted hold-up last November 13, of John Bonsignore. He is charged with assault with intent to murder and assault with intent to rob. Frank O'Neal, arrested in connection with the same case, will be prosecuted on identical charges should he recover from wounds of bullets from Bonsignore's pistol. Dep. Dist. Atty. Pitts introduced testimony to show that Bonsignore did not fire until after the two men had used their revolvers. Bonsignore told the judge he had \$250 with him at the time.

## The Reason for Withholding the Name

Messrs. ....  
New York City.  
Gentlemen:  
In reply to yours of ..... we will be very glad to do as you request and refrain from using your name in any advertising which we may run in connection with the sale of the merchandise purchased.  
Our firm has no disposition to do anything that is not constructed in accordance with business ethics.  
To make sure it will not be done, I have this day enclosed a copy of this letter to my firm. We are pleased to accommodate you in every way.  
Very truly yours,  
A. HAMBURGER AND SONS, INC.
